Price: **424.85 zł** gross / 345.41 zł net

Manufacturer: TOTOLINK

The Smartest Network Device

Referention number: DNXGGJKKMRMMKI

Product features

Height	40 mm
LED indicators	Status
Width	230 mm
Depth	75 mm
Storage temperature (T-T)	-40 - 70 °C
Number of microphone arrays	4
Power consumption (max)	3 W
Humidity measurement range	5 - 95%
USB 2.0 ports quantity	1
Camera type	Single camera
Operating temperature (T-T)	-30 - 55 °C
Maximum video resolution	2560 pixels
Maximum frame rate	30 frames per second
Built-in microphone	Yes
Field of view (wide)	90 °
Vertical field of view	15 °
HD type	Full HD+
Megapixel (approx.)	4 MP
Product colour	Black
Product weight	420 g

Full product description

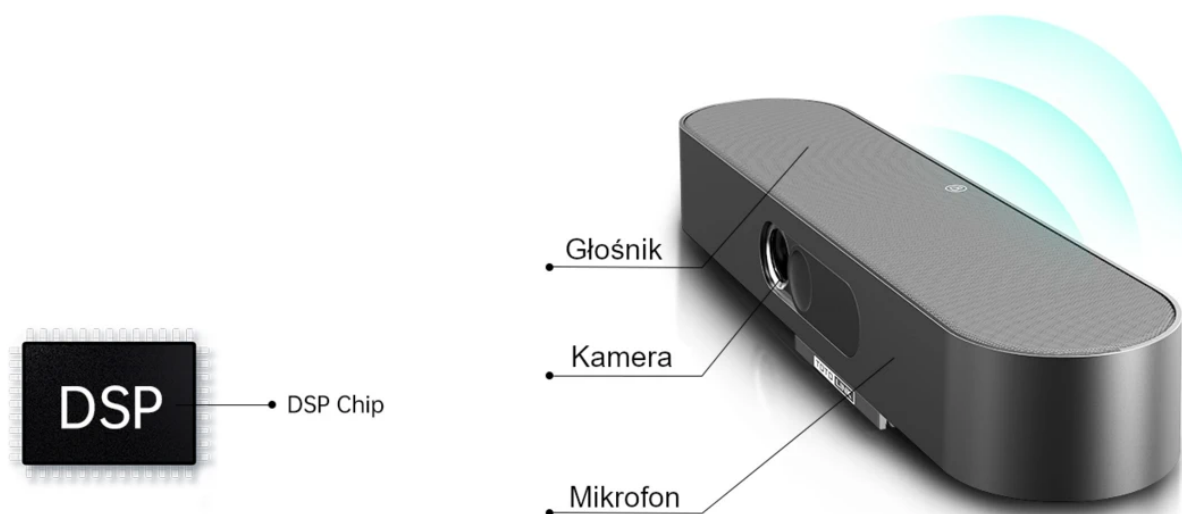

All-purpose AI conference camera designed for small or medium sized conference rooms

The **TOTOLINK M1** is a portable, all-in-one **AI webcam** for small to medium-sized conference rooms that integrates microphone, speaker and DSP audio functions. With a built-in **2K HD** camera with auto-frame function, **90° horizontal field of view**, the M1 makes every seat at the conference table clearly visible. **The internal omnidirectional microphone** picks up 360° of sound. **Plug**

Key features of the Totolink M1 camera

- Automatic face detection function
- Support for AI technology for face detection
- Lens cover for privacy protection
- High-quality design with four microphones, sound pickup radius of up to 5 meters
- Built-in high-powered speaker
- HD color CMOS sensor, 4 megapixels, 2K@30fps resolution
- Built-in 360° omnidirectional microphone with noise cancellation technology
- A 90° field of view to make sure everyone is visible during the call
- Compatible with Windows / Android / iOS / Linux operating systems
- Compatible with popular video chat and video conferencing programs or applications, such as Microsoft Teams
- With a tripod that supports 360° horizontal and 15° vertical rotation
- 30 frames per second with 2K resolution
- Ideal for remote work

Camera lens cover for privacy protection

The **Totolink M1 webcam** supports Auto Dark (automatic night mode). When the camera lens is covered, the image becomes all black without light penetration. Your privacy is well protected.

2K HD 30 frames per second video conferencing camera

The camera provides multiple resolutions, including **2K, 1080P (Full HD), 720P (HD)**.

Auto focus and automatic face detection

Totolink M1 videoconferencing cameras feature auto-focus and face detection.

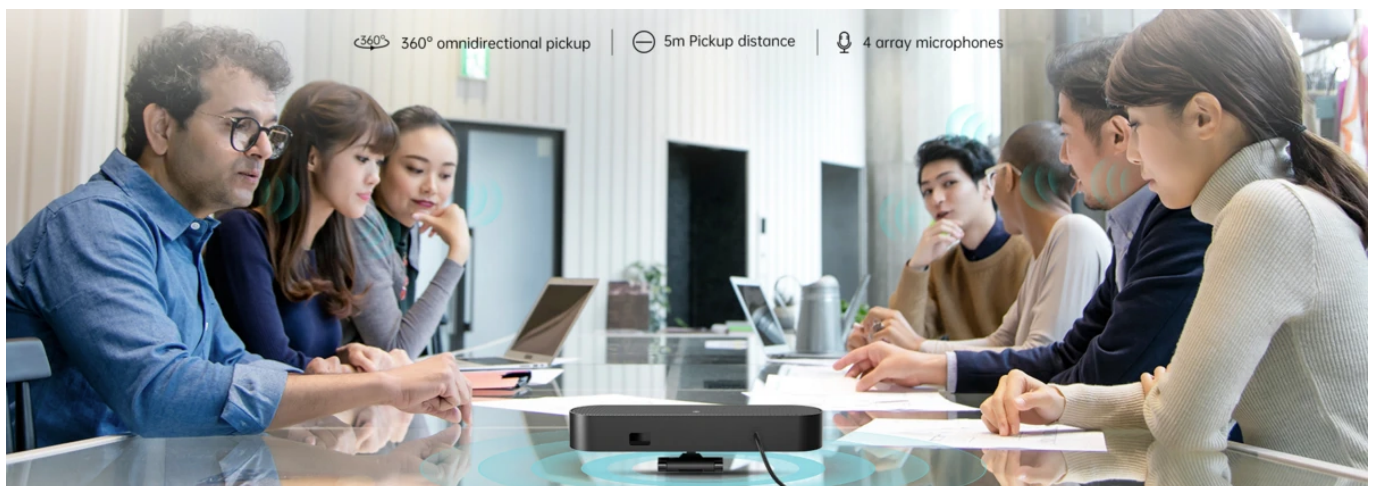

Webcams with ultra-wide view

The video conferencing camera features an **ultra-wide 90° viewing angle** to capture all the details of the meeting.

Multidirectional audio amplification of Totolink M1 video conferencing cameras

Totolink M1 AI video conferencing webcams have built-in high-precision digital microphones for **360-degree omnidirectional audio reception** within a radius of up to 5 meters.

Built-in speaker

The video conferencing camera features built-in high-powered speakers with automatic AGC gain control for clear audio.

Directional microphones

The **videoconferencing camera** has built-in 4 high-precision digital microphones based on a beamforming algorithm to ensure that the audio during the meeting will be clear and crisp.

Webcams with acoustic echo cancellation and noise reduction

Acoustic echo cancellation can automatically detect echoes and filter them when the microphone picks up sound to make sure the meeting audio is clear and stable. **Noise cancellation technology** can effectively reduce the impact of ambient sounds on video conferencing. In noisy environments, it can automatically filter (reduce) ambient sound to ensure clear audio during a meeting.

Plug and Play video conferencing cameras

Simply place the camera on the monitor or TV and connect the USB cable. The device will be automatically detected, installed and after a while it is ready to work.

The smart choice among video conferencing cameras

The camera provides compatibility with **Windows, Android, iOS, Ubuntu**, etc. Supports many video applications including **ZOOM, SKYPE, QQ, WeChat, Google Meet, Microsoft Teams, WebEx, Fastmeeting, ZHUMU, Polycom** etc.
