Full product description

Transform your viewing experience with the Extralink ESP-300 mini projector

Discover a compact device like the **Extralink ESP-300 mini projector** that brings your favorite multimedia content to life in a whole new way. With its sleek design, advanced **Quad-core ARM Cortex-A53** processor and dual-band WiFi, you can enjoy smooth streaming of movies, shows and sports events at impressive quality and speed. In addition, the built-in **3-watt HiFi speaker** will provide you with crystal clear sound, and the **Bluetooth** connectivity will elevate your audio experience to an even higher level. Whether you plan to play games, host movie nights or outdoor parties, the ESP-300 mini projector is extremely versatile with features such as **manual focus**, **automatic keystone correction** and a portable design. Enjoy a **bright and clear image on the 130-inch screen**, support for HD video and high contrast for a stunning visual effect. In addition, a **50% zoom** function and a low noise level of only 25 dB ensure that using this projector will be comfortable and flexible in

any environment.

Portable projector

Our Extralink projector is the ideal companion for travel and work. Thanks to its light weight, it fits easily into backpacks and suitcases, allowing you to use it wherever you want. Perfect for both home and office use, it provides clear images and comfortable use.

Excellent connectivity and storage space

The ESP-300 mini projector features **1GB of RAM and 8GB of ROM**, providing enough space to seamlessly stream your favorite movies, shows, sports broadcasts and music directly from your phone or laptop. The built-in **3W HiFi speaker** delivers a rich sound experience, enhancing the viewing experience. In addition, dual-band **WiFi connectivity (2.4 GHz/5.0 GHz)** ensures seamless connectivity to mobile devices and tablets, and built-in **Bluetooth 4.1** makes it easy to pair with your favorite **Bluetooth** speakers or headphones.

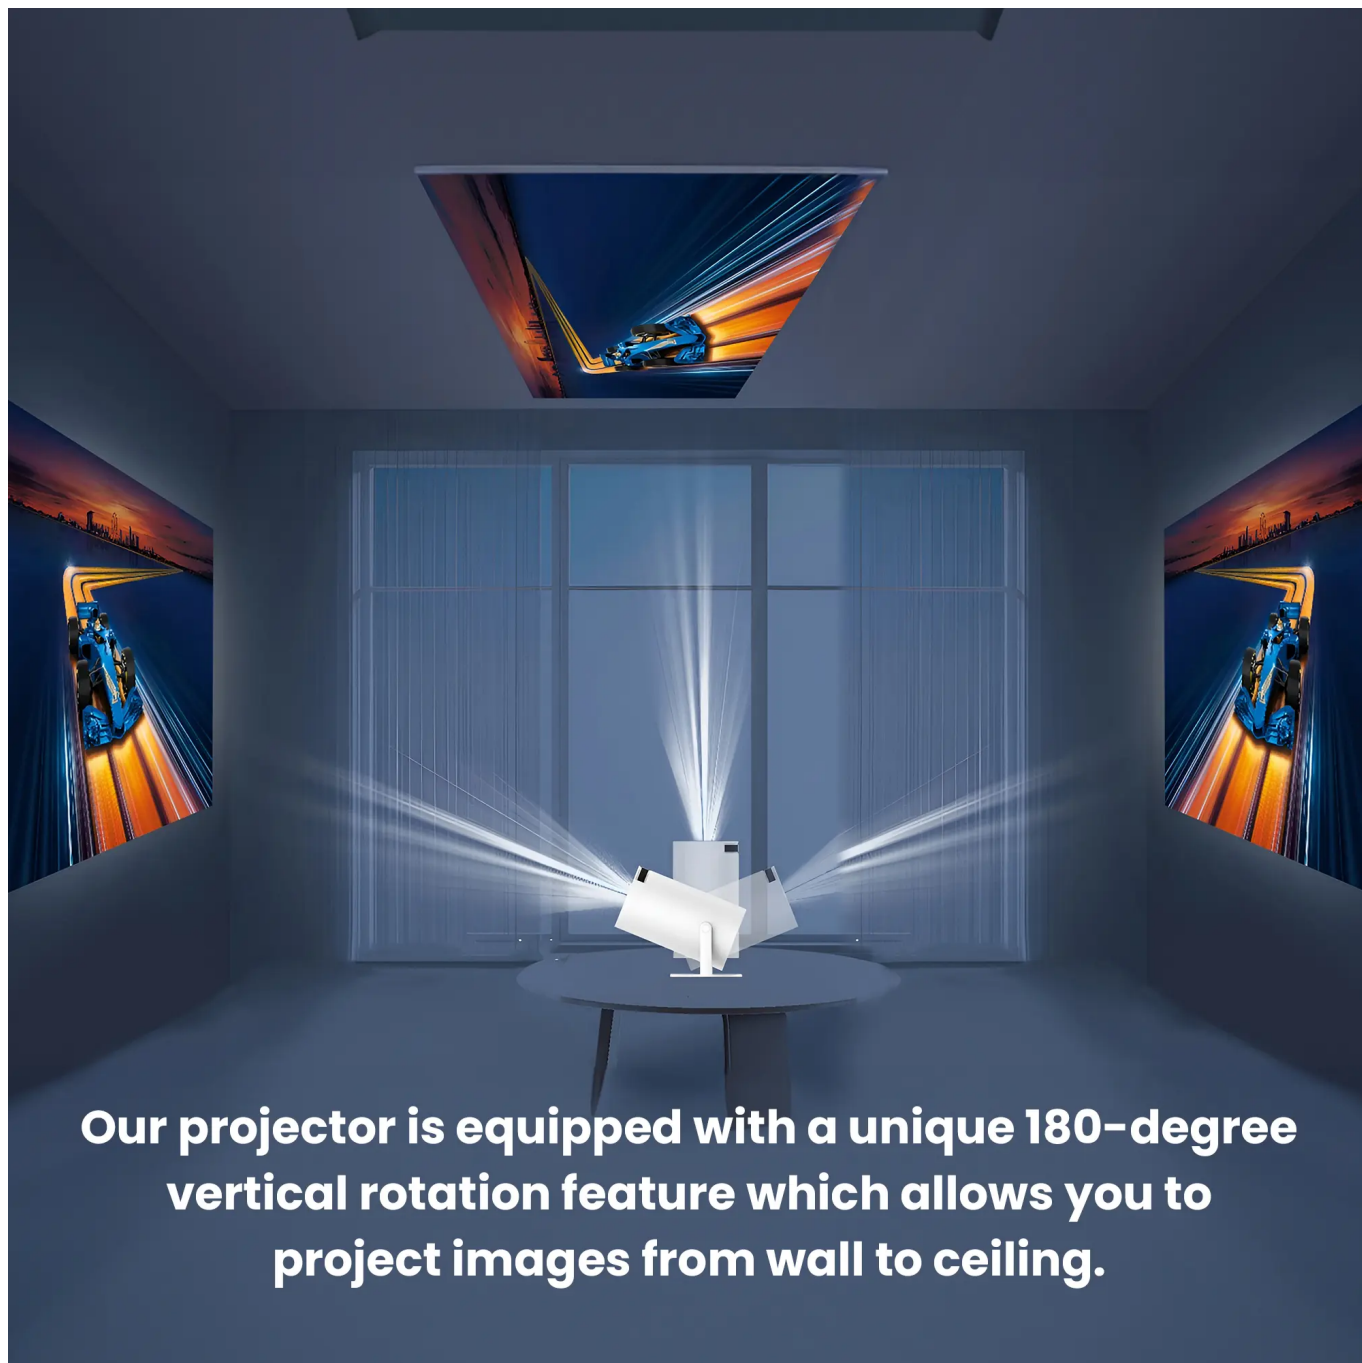

BT & built-in WiFi speaker

Advanced image processing solutions

The Extralink mini projector is equipped with advanced technology that enables precise **image focus and automatic image geometry correction**. With a native resolution of **1280 x 720 pixels**, an impressive **contrast** ratio of **1,500:1** and support for Full HD 4K video decoding, the ESP-300 guarantees unparalleled projected image quality.

Our projector is equipped with a unique 180-degree vertical rotation feature which allows you to project images from wall to ceiling.

Portable and comfortable to use

The Extralink ESP-300 is designed for convenient portability. With its light weight of about 500 grams, and compact dimensions, the Extralink projector will easily fit into a backpack or travel case. This device also has the **ability to rotate 180 degrees vertically**, allowing you to project images from floor to ceiling, making it the perfect companion for camping, travel or outdoor events.

Automatic keystone correction

Large screen area and zoom

Indulge in a cinematic experience with the ability to project an image on a **huge 130-inch screen**. The ESP-300 features a 50% zoom function that you can conveniently control with the remote control, allowing you to adjust the size of the projected image without having to move the projector. This option, combined with a **low noise level of just 25 dB**, ensures a fascinating and comfortable experience during a movie screening.
