Full product description

Stability and speed in one place

Compact and efficient **N350RT router** with **300 Mbps** throughput at **2.4 GHz** from [Totolink](#). It supports static IP address, DHCP and PPPoE.

No more dead zones

The stability in data flow means you'll find coverage in every corner of your home. If you need to quickly check the availability of new tiles while taking a bath, no problem. The N350RT router will give you coverage **in every room**.

Quick one-click access

There's a little **WPS button** on the router, so you can connect to other devices wirelessly with one click. No more long and complicated passwords to remember, and you can share the Internet with anyone at home.

Share if you like

You have the possibility to create a guest network for other household members or people visiting you. Your ID will work flawlessly thanks to **MultiSSID**. You will have your own workspace and no one will disturb it by downloading files or playing games.

Parental controls

Totolink has also taken care of the youngest members of your household. Thanks to Parental Controls, you are able to **block website addresses** that you consider unfavorable. You also have the possibility to **set the time of access** to the network for your child.

Manage your router from your phone

The router settings center on **your phone**? Of course. Manage all the functions of the device from your cell phone, wherever you are. By accessing the manufacturer's website, you are able to configure the entire device in a few moments without memorizing individual settings and schemes.
