Full product description

Discover the Potential of the EXTRALINK ESP-300v2 Mini Projector

Experience the capabilities of the **EXTRALINK SMART LIFE SMART PROJECTOR ESP-300v2** mini projector. This compact device will surprise you with its versatility and functionality, bringing your favorite multimedia content to life in a way that will exceed your expectations. With its compact size and sleek design, this projector will fit perfectly into any interior, while delivering impressive picture and sound quality.

Advanced Technology for Excellent Quality

At the heart of **the EXTRALINK ESP-300v2 projector** is an advanced **Quad-core ARM Cortex-A53** processor, which guarantees smooth playback of movies, TV shows or sports events. Thanks to dual-band WiFi, you can enjoy uninterrupted streaming of HD content without unnecessary interruptions or delays. This is the ideal solution for those who appreciate smoothness and comfort while watching.

Flexibility and Convenience in Any Condition

The EXTRALINK ESP-300v2 mini projector is a device that will adapt to any situation. With manual focus and automatic keystone correction, you'll always get the perfect picture, no matter where you project. The portable design makes the projector extremely portable and easy to carry, allowing you to hold movie nights or outdoor events without any restrictions.

Unparalleled Image Quality and User Comfort

Enjoy a bright and clear picture on a screen size of up to 130 inches. HD video support and high contrast ensure that every detail is perfectly visible. In addition, the 50% zoom function allows you to adjust the image size to your needs, and the low noise level of just 25 dB ensures comfort without disturbing your entertainment.
