Price: **77.99 zł** gross / 63.41 zł net

Manufacturer: TOTOLINK

The Smartest Network Device

Referention number: DNXXFMPMSIRMNHK

Product features

Storage relative humidity (H-H)	5 - 95%
Power source	AC/DC
Height	25 mm
Input voltage	5 V
LED indicators	Activity
Wall mountable	Yes
Width	106 mm
Depth	163 mm
Auto-negotiation	Yes
Input current	1 A
Storage temperature (T-T)	-40 to 70 °C
Cables included	DC
Rack mounting	No
Power consumption (typical)	4.5 W
Humidity measurement range	5 - 95%
Switching capacity	2 Gb/s
Networking standards	IEEE 802.3
Switch type	Unmanaged
Rubber feet	Yes

10G support	No
Full duplex	Yes
MAC address auto-learning supported	Yes
MAC address auto-aging supported	Yes
IFU / User manual	Yes
Auto MDI/MDI-X	Yes
DC input voltage	9 V
Plug and Play	Yes
Operating temperature (T-T)	0 - 50 °C
Package type	Box
Flow control support	Yes
MAC address table	2048 entries
Power supply included	Yes
Power over Ethernet (PoE)	No
AC input frequency	50 Hz
AC input voltage	100 V
Gigabit Ethernet (copper) ports quantity	5
Cable types supported	Cat5
Store-and-forward	Yes
Product colour	Black
Power connector	DC-in jack
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Watch case material	Plastic
Basic switching RJ-45 Ethernet ports quantity	5
Stackable	No

Full product description

Totolink S505G - 5-port Gigabit switch

Totolink S505G is a 5-port unmanaged switch. It is a smart, very **efficient Gigabit switch** that is ideal for home or office networks. It has 5 10/100/1000BASE-T (AUTO-MDIX) Gigabit Ethernet ports and can provide up to 2000 Mbps in full duplex mode.

Features:

- Compliant with IEEE 802.3, IEEE 802.3u, IEEE 802.3ab, IEEE 802.3x
- 5 ports 10/100/1000 Mbps AUTO-MDIX
- Supports data flow control for each port
- Supports MDI/MDIX car for each port
- Supports capacity control for each port

5 port, gigabit switch

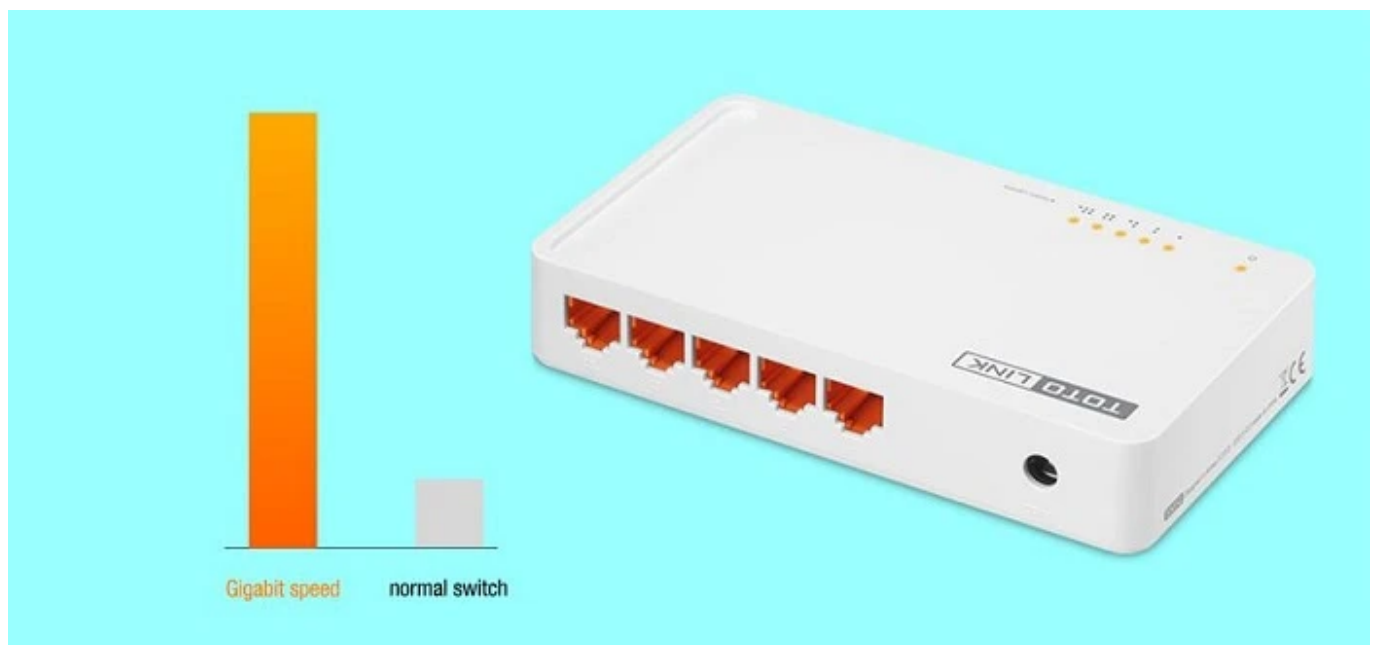

The Totolink S505G is a **gigabit switch** that allows **to expand the network to a Gigabit** Ethernet version. With full Gigabit ports and a compact design, the S505G increases the speed of your network server, but also makes Gigabit capabilities a reality. It is a great solution to provide high performance for home or office networks.

5-Port Gigabit Ethernet Switch

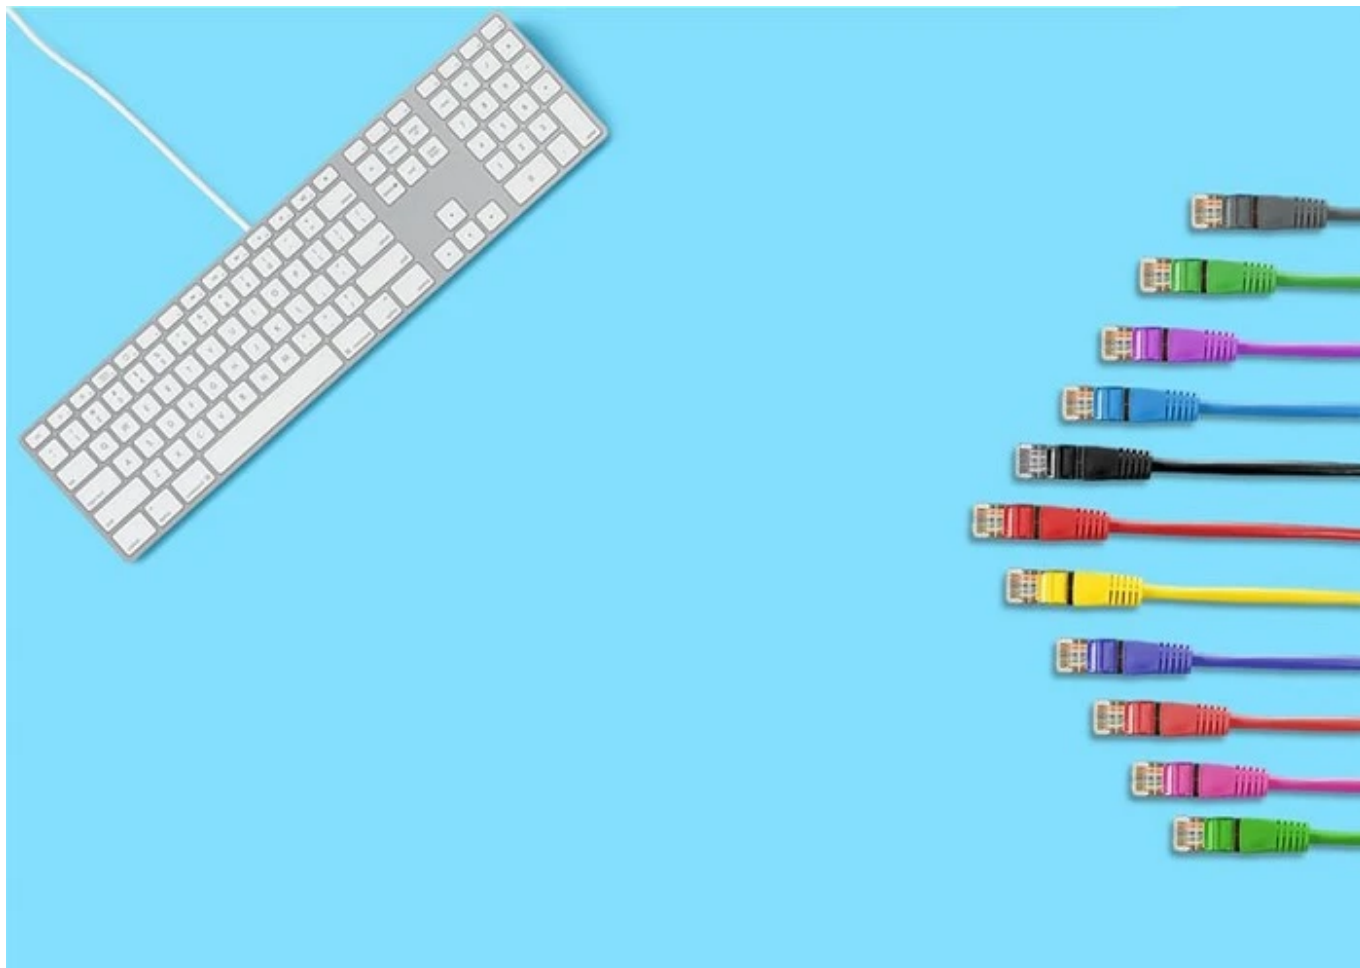

High speed

The S505G offers five 10/100/1000 Mbps RJ45 ports that can significantly increase network throughput and enable instant transfer of large files. All ports detect the network speed and automatically negotiate (10, 100 or 1000 Mbps) to provide the maximum possible speed for each device connected to the network.

Auto MDI/MDIX function

The Auto MDI/MDIX function helps to determine whether a connection requires an automatic straight or crossover connection. There is no need to worry about cable type.

Plug and Play

The switch does not require any configuration, just plug and play. You can add up to seven devices that use an Ethernet cable to expand your wired home network and share high-speed Internet with other users.
