Price: **50.38 zł** gross / 40.96 zł net

Manufacturer: TOTOLINK

The Smartest Network Device

Referention number: DNXGGJKKLRMMJJ

Product features

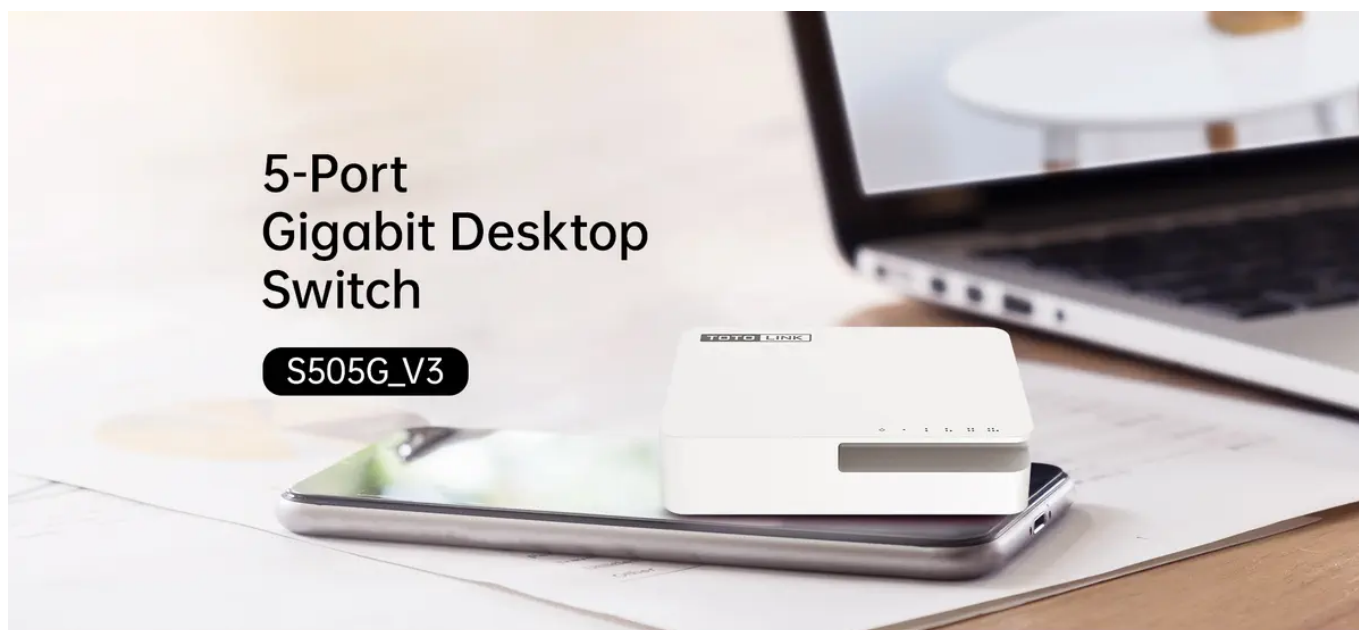

Storage relative humidity (H-H)	10 - 90%
Power source	AC/DC
Height	24 mm
Input voltage	5 V
LED indicators	Activity
Wall mountable	Yes
Width	65 mm
Depth	93 mm
Auto-negotiation	Yes
Input current	0.6 A
Storage temperature (T-T)	-40 to 70 °C
Cables included	DC
Rack mounting	No
Power consumption (typical)	3 W
Humidity measurement range	10 - 90%
Switching capacity	10 Gb/s
Networking standards	IEEE 802.3
Switch type	Unmanaged
Rubber feet	Yes
10G support	No
Full duplex	Yes
MAC address auto-learning supported	Yes

MAC address auto-aging supported	Yes
IFU / User manual	Yes
Auto MDI/MDI-X	Yes
DC input voltage	5 V
Plug and Play	Yes
Operating temperature (T-T)	0 – 40 °C
Package type	Box
Flow control support	Yes
MAC address table	2048 entries
Power supply included	Yes
Power over Ethernet (PoE)	No
AC input frequency	50 Hz
AC input voltage	100 V
Gigabit Ethernet (copper) ports quantity	5
Cable types supported	Cat3
Store-and-forward	Yes
Product colour	White
Power connector	DC-in jack
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Watch case material	Plastic
Basic switching RJ-45 Ethernet ports quantity	5
Stackable	No

Full product description

Totolink S505G, which is a 5-port 10/100/1000Mbps gigabit ethernet switch

The **S505G** is a 5-port unmanaged switch. It is an intelligent high-performance gigabit switch that provides an ideal solution for home or office networks. It has 5 10/100/1000BASE-T (AUTO-MDIX) Gigabit Ethernet ports, and can provide full bandwidth of up to 2000Mbps in full duplex mode.

Features:

- Supports auto MDI/MDIX for each port
- Supports data flow control for each port
- Compliant with IEEE 802.3, IEEE 802.3u, IEEE 802.3ab, IEEE 802.3x standards
- 5 ports 10/100/1000Mbps AUTO-MDIX

- Supports bandwidth control for each port

5 port gigabit switch

The S505G is a gigabit switch that allows you to upgrade your network to gigabit Ethernet. With full gigabit ports and a compact design, the S505G increases the speed of the network server, but also makes gigabit capabilities a reality. Overall, the device is a high-performance solution for a home or office network.

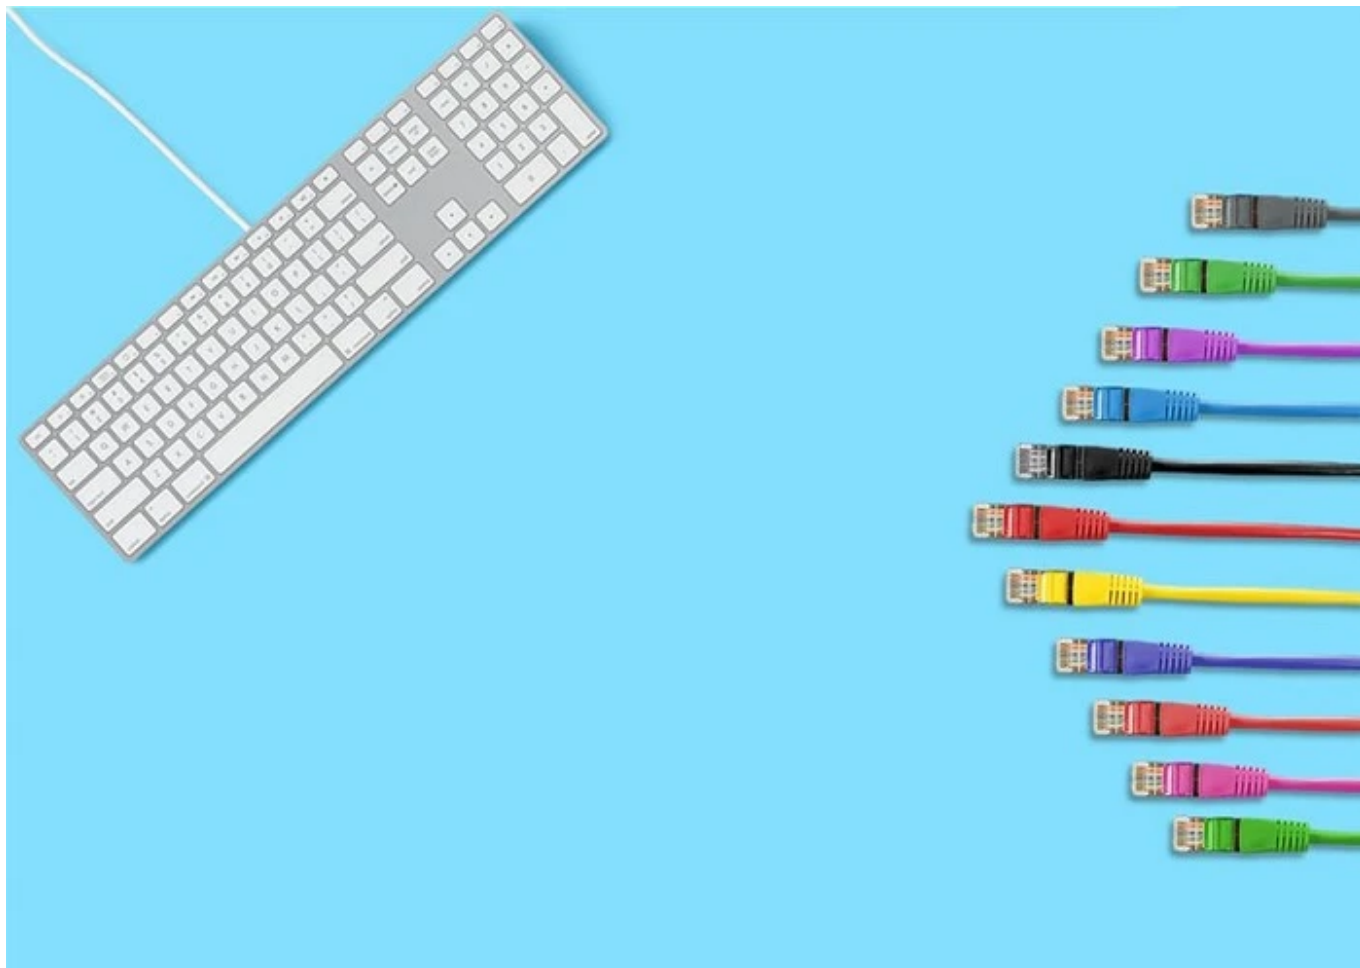

High speed

The S505G offers five 10/100/1000 Mbps RJ45 ports, which can greatly increase network throughput and enable instant transfer of large files. All ports detect the network speed and automatically negotiate (10, 100 or 1000 Mbps) to ensure the maximum possible speed for each device connected to the network.

Auto MDI/MDIX function

The Auto MDI/MDIX function helps you determine whether your connection requires an automatic straight or crossover connection. No need to worry about cable type.

Plug and Play

No configuration is required, just plug and play. You can add up to seven devices using Ethernet cable to extend your wired home network and share high-speed Internet with other users.
