Price: **44.99 zł** gross / 36.58 zł net

Manufacturer: TOTOLINK

The Smartest Network Device

Referention number: DNXELLSLRMNJJ

Product features

Storage relative humidity (H-H)	5 - 95%
Power source	AC/DC
Height	24 mm
Input voltage	5 V
LED indicators	Activity
Wall mountable	Yes
Width	75 mm
Depth	132 mm
Auto-negotiation	Yes
Input current	0.6 A
Storage temperature (T-T)	-40 to 70 °C
Cables included	DC
Rack mounting	No
Power consumption (max)	3 W
Power consumption (typical)	3 W
Humidity measurement range	5 - 95%
Switching capacity	1 Gb/s
Networking standards	IEEE 802.3
Switch type	Unmanaged
10G support	No
Full duplex	Yes
MAC address auto-learning supported	Yes

MAC address auto-aging supported	Yes
IFU / User manual	Yes
DC input voltage	5 V
Plug and Play	Yes
Operating temperature (T-T)	0 - 50 °C
Package type	Box
MAC address table	1024 entries
Power supply included	Yes
Power over Ethernet (PoE)	No
AC input frequency	50 Hz
AC input voltage	100 V
Fast Ethernet (copper) ports quantity	8
Cable types supported	Cat5
Store-and-forward	Yes
Product colour	White
Power connector	DC-in jack
Basic switching RJ-45 Ethernet ports type	Fast Ethernet (10/100)
Watch case material	Plastic
Basic switching RJ-45 Ethernet ports quantity	8
Stackable	No

Full product description

TOTOLINK S808 switch - very affordable switch

Totolink S808 is an eight-port, unmanaged switch. The switch is equipped with 8 ports with 10/100 Mbps throughput, Auto MDI/MDIX support on each port, and can eliminate the need for crossover cables or uplink ports. It can transfer and filter packets at full cable speed. Each port can be used as a general port or uplink port. What's more, it can simply be connected to a server, hub or switch using an Ethernet or crossover cable.

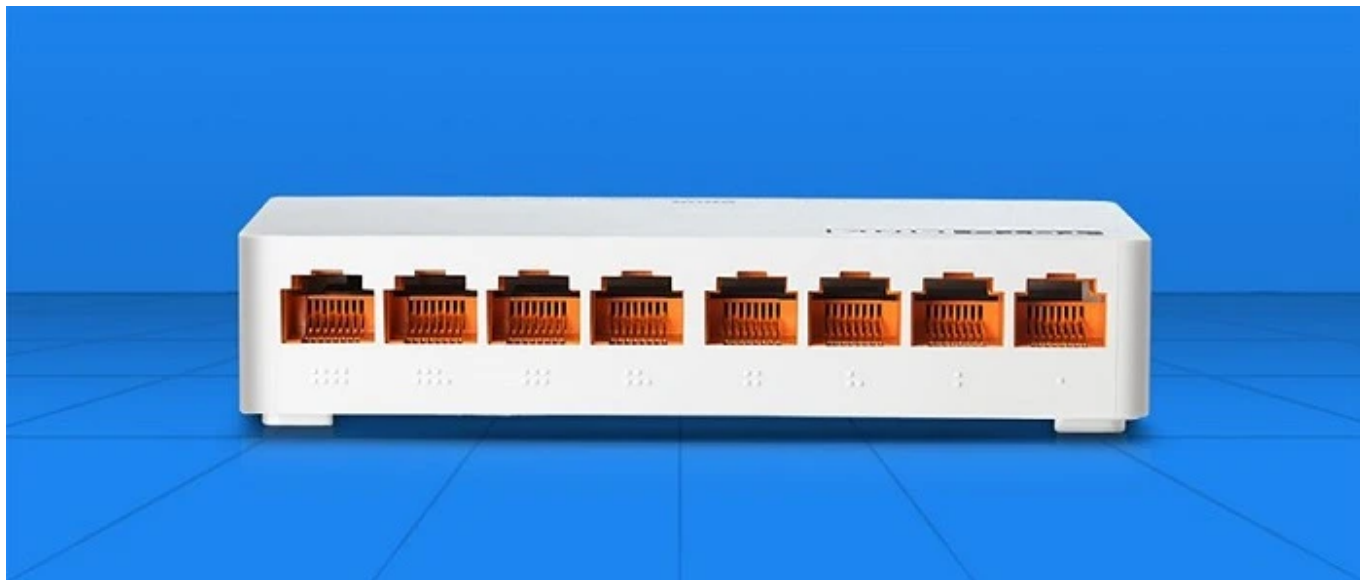

High performance and small size

The switch is compliant with IEEE 802.3, IEEE 802.3u, IEEE 802.3x standards and has eight 10/100 Mbps RJ45 ports with automatic reconciliation with LED controls to monitor link status and activity. The auto MDI/MDIX function on all ports helps to recognize whether the connection requires a crossover or straight cable. The ports can also detect the network speed and auto-negotiate the network between 10BaseT and 100BaseTX to ensure maximum possible speed for each device connected to the network. With its miniature design, the Totolink S808 is easy to carry.

Easy to use

The switch is easy to use, even for people who do not have technical knowledge about network devices. Simply plug in the cable to expand your home wired network. With a simple Ethernet cable, you can add up to four devices without additional configuration.

High-speed Ethernet connection

S808 switch, compliant with IEEE 802.3, IEEE 802.3u, IEEE 802.3x network standards, offers 8 10/100 Mbps ports with Auto-MDI/MDIX support, which significantly increases network throughput and simplifies cable placement.
