Price: **105.01 zł** gross / 85.37 zł net

Manufacturer: TOTOLINK

The Smartest Network Device

Referention number: DNXXFFMPSHRMNGL

Product features

Storage relative humidity (H-H)	5 - 95%
Power source	AC/DC
Height	25 mm
Input voltage	9 V
LED indicators	Activity
Width	106 mm
Depth	163 mm
Auto-negotiation	Yes
Input current	0.5 A
Storage temperature (T-T)	-40 to 70 °C
Rack mounting	No
Power consumption (typical)	4.5 W
Humidity measurement range	5 - 95%
Switching capacity	1 Gb/s
Networking standards	IEEE 802.3
Switch type	Unmanaged
10G support	No
Full duplex	Yes
MAC address auto-learning supported	Yes
MAC address auto-aging supported	Yes
Auto MDI/MDI-X	Yes
DC input voltage	9 V

Plug and Play	Yes
Operating temperature (T-T)	0 – 50 °C
Flow control support	Yes
MAC address table	4096 entries
Power supply included	Yes
Power over Ethernet (PoE)	No
AC input frequency	50 Hz
AC input voltage	100 V
Gigabit Ethernet (copper) ports quantity	8
Product colour	White
Power connector	DC-in jack
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Watch case material	Plastic
Basic switching RJ-45 Ethernet ports quantity	8
Stackable	No

Full product description

TOTOLINK S808G - 8-port, gigabit switch

Totolink S808G is an 8-port unmanaged switch. It is a smart and very efficient Gigabit switch, which is ideal for home or office networks. It has 5 10/100/1000BASE-T (AUTO-MDIX) Gigabit Ethernet ports and can provide up to 2000 Mbps in full duplex mode.

Features:

- Compliant with IEEE 802.3, IEEE 802.3u, IEEE 802.3ab, IEEE 802.3x
- 5 ports 10/100/1000 Mbps AUTO-MDIX
- Supports data flow control for each port
- Supports MDI/MDIX car for each port
- Supports capacity control for each port

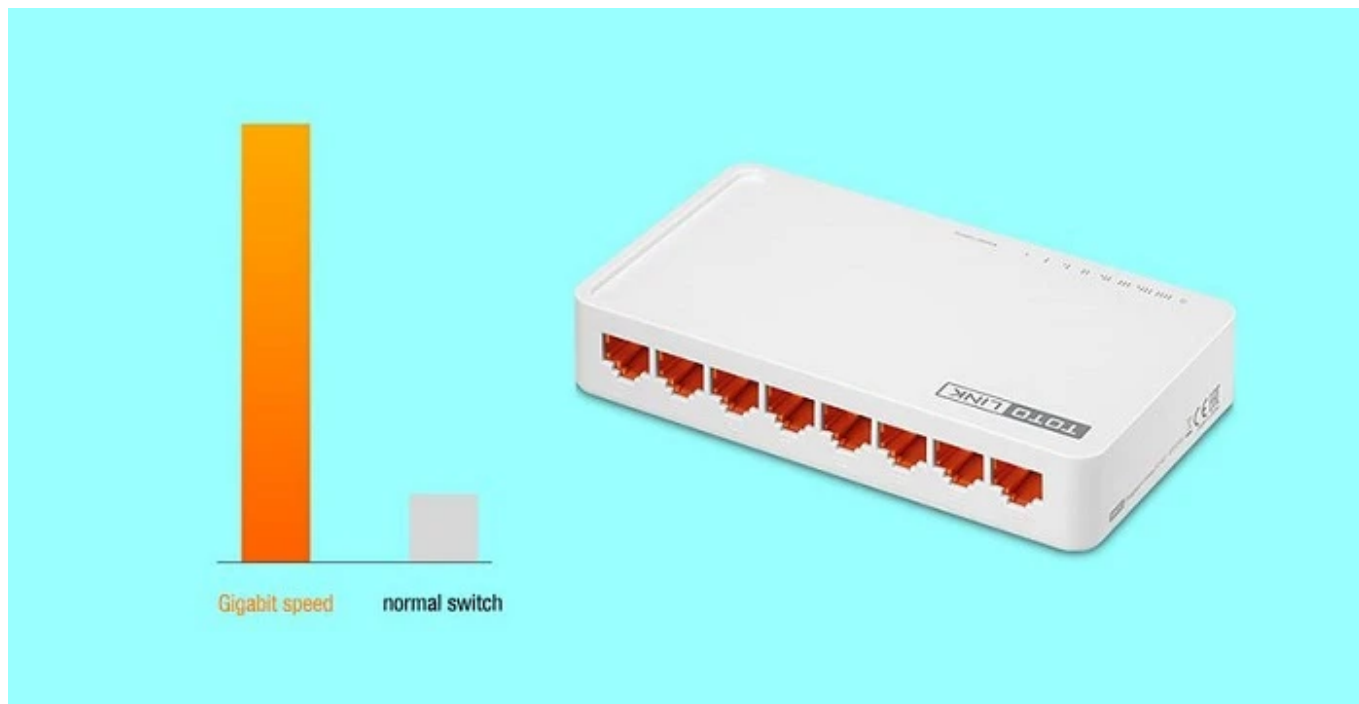

8 port, gigabit switch

Totolink S808G is a Gigabit switch that allows you to upgrade your network to Gigabit Ethernet. With full Gigabit ports and a compact **S808G** design, it increases the speed of your network server and makes gigabit capabilities a reality. In short, it is a solution that guarantees high performance for your home or office network.

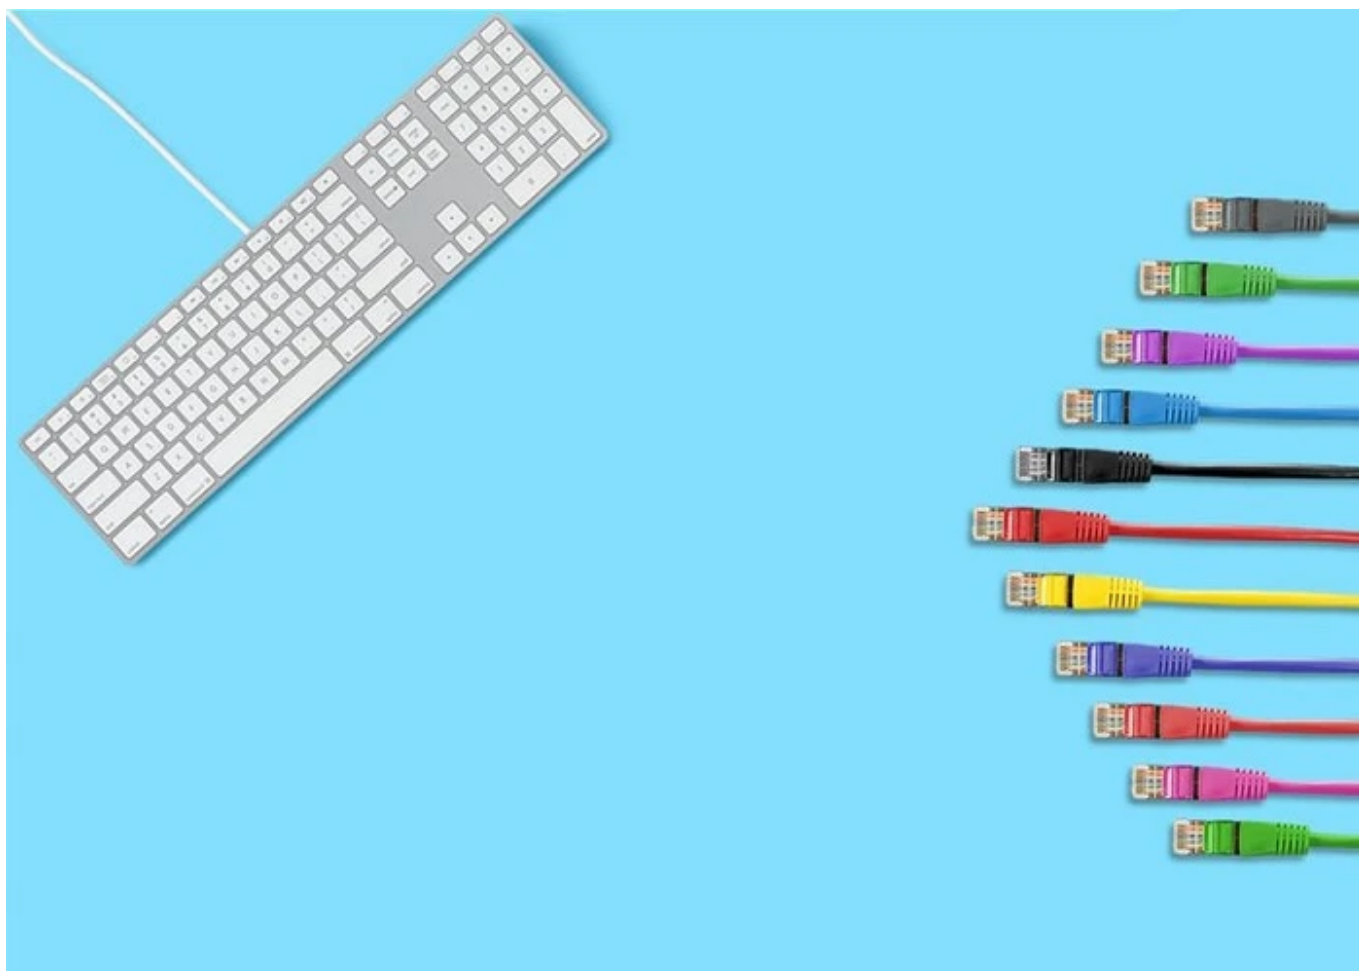

Switch for high network speed

The S808G offers eight 10/100/1000 Mbps RJ45 ports that can significantly increase network throughput and enable instant transfer of large files. All ports detect the network speed and automatically negotiate (10, 100 or 1000 Mbps) to provide **the maximum possible speed** for any device connected to the network.

Auto MDI/MDIX function

The Auto MDI/MDIX function helps to determine whether an automatic straight or crossover connection is required. There is no need to worry about the type of cable, as you can connect both crossover and straight cable to any port.

Plug and Play - connect and run

No configuration is required, just plug and play. You can add up to seven Ethernet-enabled devices to expand your wired home network and share high-speed Internet with other users.
