Price: **169.99 zł** gross / 138.20 zł net

Manufacturer: TOTOLINK

## The Smartest Network Device

Referention number: DNXFLLISERMMLJ

### Product features

|                                 |                   |
|---------------------------------|-------------------|
| Storage relative humidity (H-H) | 5 - 95%           |
| Power source                    | mains electricity |
| Height                          | 44 mm             |
| LED indicators                  | Activity          |
| Width                           | 440 mm            |
| Depth                           | 180 mm            |
| Storage temperature (T-T)       | -40 to 70 °C      |
| Cables included                 | AC                |
| Rack mounting                   | Yes               |
| Humidity measurement range      | 5 - 95%           |
| DIN rail mounting               | Yes               |
| Switching capacity              | 3.2 Gb/s          |
| Networking standards            | IEEE 802.3        |
| Switch type                     | Unmanaged         |
| 10G support                     | No                |
| IFU / User manual               | Yes               |
| Auto MDI/MDI-X                  | Yes               |
| Operating temperature (T-T)     | 0 - 50 °C         |
| Package type                    | Box               |
| Rack mount kit                  | Yes               |
| MAC address table               | 4096 entries      |
| Power supply included           | Yes               |

|                                               |                        |
|-----------------------------------------------|------------------------|
| Power over Ethernet (PoE)                     | No                     |
| AC input frequency                            | 50 Hz                  |
| AC input voltage                              | 100 V                  |
| Fast Ethernet (copper) ports quantity         | 16                     |
| Product colour                                | Black                  |
| Power connector                               | AC-in jack             |
| Switch layer                                  | L2+                    |
| Basic switching RJ-45 Ethernet ports type     | Fast Ethernet (10/100) |
| Watch case material                           | Metal                  |
| Basic switching RJ-45 Ethernet ports quantity | 16                     |
| Stackable                                     | No                     |

## Full product description

### TOTOLINK SW16 - unmanageable 16-port switch

**Totolink SW16** is a 16-port Fast Ethernet switch that offers **16 RJ-45** ports at 10/100 Mbps. All ports support the auto MDI/MDIX function which allows you to configure the switch according to the type of connected devices, which eliminates wiring problems and shortens installation time. The switch works as a plug-and-play device (plug and play) and each port can work as a general or uplink. The port can also be simply connected to a server, hub or switch using a normal or crossover cable.

## Features:

- Meets IEEE 802.3, IEEE 802.3u and IEEE 802.3x standards
- It has 16 10/100 Mbps ports
- IEEE 802.3x flow control support for full duplex mode and back pressure for half-duplex mode
- Supports MAC and MAC auto-aging
- LED indicators to monitor power, connections and activity
- Plastic casing, wall mounting or desk top installation
- External power supply

## Flexible and fast

The Auto MDI/MDI-X crossover option in all ports helps to automatically check if the link requires a straight-through or cross-over connection. These ports detect the speed of your network, automatically reconcile the power between 10BASE-T and 100BASE-TX to provide the maximum possible speed for each device connected to your network.

## Multiple connections and simple operation

Operating the switch is trivially simple. No need to worry about the type of cable, just plug in the switch and you're done. This device allows you to extend your home network with more cable-based devices. With a standard Ethernet cable, you can add up to fifteen devices.
