Full product description

Transform your viewing experience with the Extralink ESP-Mini mini projector with

Android 11

Discover a compact device like the **Extralink ESP-Mini mini projector** that brings your favorite multimedia content to life in a whole new way. With its sleek design, advanced **Quad-core ARM Cortex-A53** processor and dual-band WiFi, you can enjoy seamless streaming of movies, shows and sports events at impressive quality and speed from apps available on **Android 11**. In addition, the built-in **3-watt HiFi speaker** will provide you with crystal clear sound, while the **Bluetooth** connectivity will elevate your audio experience to an even higher level. Whether you plan to play games, host movie nights or outdoor parties, the ESP-Mini mini projector is extremely versatile with features such as **manual focus, automatic keystone correction** and a portable design. Enjoy a **bright and clear image on the 130-inch screen**, support for HD video and high contrast for a stunning visual effect. In addition, a **50% zoom** function and a low noise level of only 25 dB ensure that using this projector will be comfortable and flexible in any environment.

Przenośny projektor

Nasz projektor Extralink to idealny towarzysz podróży i pracy. Dzięki niewielkiej wadze zmieścisz go łatwo w plecaku czy walizce podróżnej, zapewniając sobie możliwość prezentacji gdziekolwiek zechcesz. Doskonały zarówno do użytku domowego, jak i biurowego – gwarantuje wyraziste obrazy i wygodę użytkowania.

Excellent connectivity and storage space

The ESP-Mini Mini Projector features **1GB of RAM and 8GB of ROM**, providing enough space to seamlessly stream your favorite movies, shows, sports broadcasts and music directly from your phone or laptop. The built-in **3W HiFi speaker** delivers a rich sound experience, enhancing the viewing experience. In addition, dual-band **WiFi connectivity (2.4 GHz/5.0 GHz)** ensures seamless connectivity to mobile devices and tablets, and built-in **Bluetooth 4.1** makes it easy to pair with your favorite **Bluetooth** speakers or headphones.

Portable and comfortable to use

The Extralink ESP-Mini is designed for convenient portability. With its light weight of about 500 grams, and compact size, the Extralink projector will easily fit into a backpack or travel case. This device also has the **ability to rotate 180 degrees vertically**, allowing you to project images from floor to ceiling, making it the perfect companion for camping, travel or outdoor events.

Large screen area and zoom

Indulge in a cinematic experience with the ability to project an image on a **huge 130-inch screen**. The ESP-Mini features a 50% zoom function that you can conveniently control with the remote control, allowing you to adjust the size of the projected image without having to move the projector. This option, coupled with a **low noise level of just 25 dB**, ensures a fascinating and comfortable movie screening experience.
