Price: **549.00 zł** gross / 446.34 zł net

Manufacturer: TOTOLINK

The Smartest Network Device

Referention number: DNXGGIQLMRMMOM

Product features

Storage relative humidity (H-H)	5 - 95%
Product type	Mesh system
Height	87 mm
Antenna type	Internal
LED indicators	System
Universal Plug and Play (UPnP)	Yes
Width	105 mm
Depth	105 mm
Security algorithms	WPA
Firmware upgradeable via	Network
Storage temperature (T-T)	-40 - 70 °C
Power consumption (typical)	12 W
Humidity measurement range	5 - 95%
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	2
Ethernet cable	Yes
DC-in jack	Yes
Operating temperature (T-T)	0 - 50 °C
AC adapter included	Yes
Quality of Service (QoS) support	Yes
Reset button	Yes
Dynamic DNS (DDNS)	Yes

MU-MIMO technology	Yes
Power over Ethernet (PoE)	No
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Parental control	Yes
Wi-Fi standards	802.11a
AC input frequency	50 Hz
AC input voltage	100 V
Top Wi-Fi standard	Wi-Fi 6 (802.11ax)
AC adapter output current	1 A
AC adapter output voltage	12 V
Antenna direction type	Omni-directional
Product colour	Black
WLAN data transfer rate (first band)	1201 Mb/s
WLAN data transfer rate (second band)	574 Mb/s
Ethernet WAN	Yes
WLAN data transfer rate (max)	1775 Mb/s
DHCP client	Yes
DHCP server	Yes

Full product description

TOTOLINK X18

The **X18** is specially designed to create a smart home Wi-Fi system. With **dual-band 1.8Gbps Wi-Fi** and one-click auto-connection function, X18 easily and efficiently realizes Wi-Fi coverage even in large apartments, multiple floors and so on. Meanwhile, the wireless roaming function helps you swap to a better signal source, keeping you connected and enjoying **high-speed Wi-Fi throughout your home**.

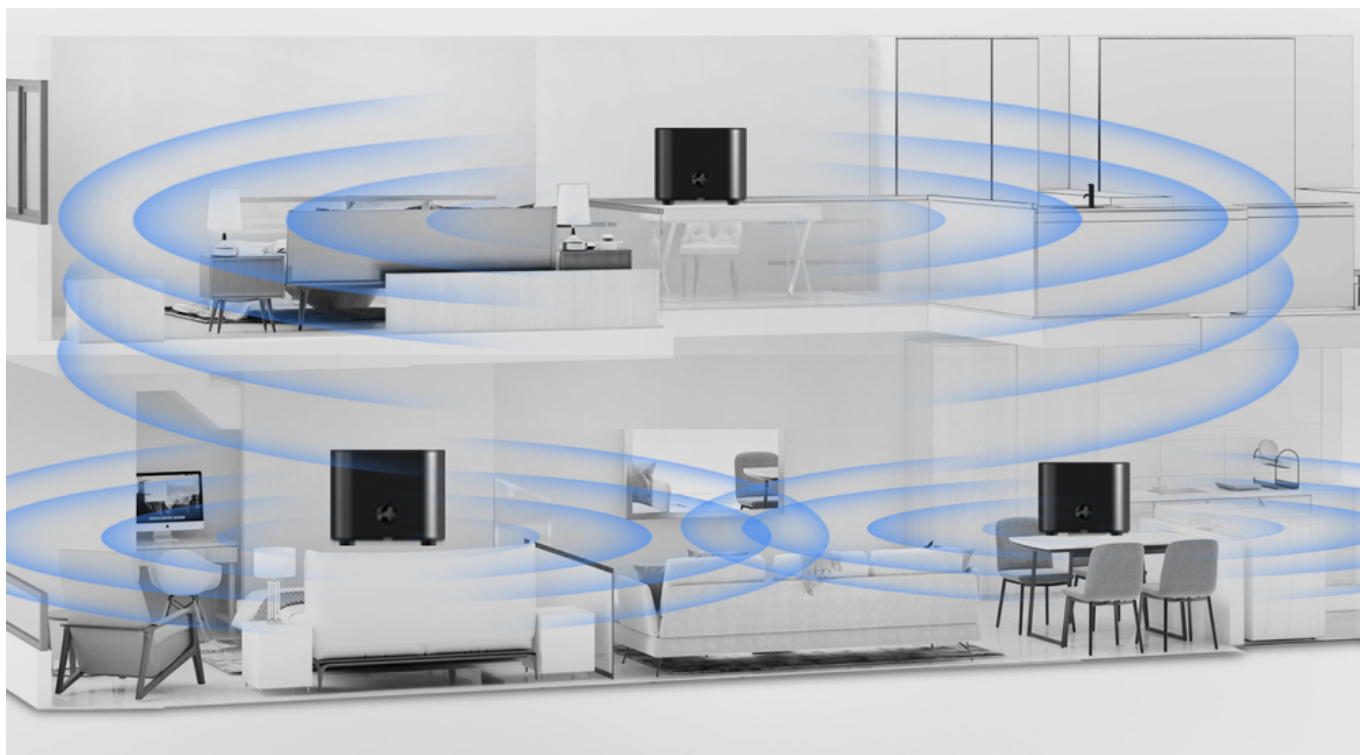

More energy efficient

IEEE802.11 AX technology - helps devices communicate better while using less power. TWT-enabled devices negotiate when and how often they will wake up to send or receive data, extending sleep time and greatly extending battery life.

Ultra-fast Wi-Fi speeds

The **X18** is compliant with the latest Wi-Fi Standard 6 (IEEE802.11ax), providing Wi-Fi speeds of up to 1201Mbps on the 5GHz band and 574Mbps on the 2.4GHz band. **It can operate simultaneously on both the 2.4GHz and 5GHz bands** and delivers speeds of up to 1775Mbps. Every application feels smoother with dramatically improved Wi-Fi speeds. Both the 2.4GHz and 5GHz bands have been upgraded to the latest generation - **ideal for 4K streaming**, online gaming and fast downloads.

Ensure connectivity throughout your home

X18 supports wireless roaming, all Wi-Fi devices will automatically switch to a stronger signal, keeping you connected with seamless Wi-Fi in every corner of your home. To automatically connect to establish **a smart wireless mesh network**, press a button on your device and start pairing.

Quick setup

You can set up your router in minutes using your phone's UI or the **TOTOLINK Router App**. The app allows you to manage network settings from any Android or iOS device.

Network security

IPv6 is the latest version of the Internet protocol that can intelligently identify devices on the Internet. Compared to IPv4, it has a larger address space, faster propagation speed and higher security performance. **WPA3** strengthens Wi-Fi encryption to enhance security. You can get best-in-class cyber security with **the latest version of WPA3** to protect your family from malware, stolen passwords, identity theft and hacker attacks.
