

TP-Link Archer AX23 | WiFi Router | WiFi6, AX1800, Dual Band, 5x RJ45 1000Mb/s

link to the product:

<https://www.batna24.com/gb/p/routers/tp-link-archer-ax23-wifi-router-wifi6-ax1800-dual-band-5x-rj45-1000mb-s>

Price: **301.20 zł** gross / 244.88 zł net

Manufacturer: TP-LINK

Referention number: DNXGGIMMDRMLOL

Product features

Regulatory Approvals	FCC, CE, RoHS
Product type	Tabletop router
Height	41.6 mm
Output voltage	12 V
Modulation	OFDMA
Firewall	Yes
URL filtering	Yes
Universal Plug and Play (UPnP)	Yes
Width	260.2 mm
Depth	135 mm
Security algorithms	128-bit WEP
NAT functionality	Port Forwarding, Port Triggering, UPnP, DMZ
WAN connection type	RJ-45
Cables included	LAN (RJ-45)
Export Control Classification Number (ECCN)	5A992
Package weight	730 g
Humidity measurement range	10 - 90%
Harmonized System (HS) code	8517.62
Ethernet LAN interface type	Gigabit Ethernet
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	4
Full duplex	Yes

DC-in jack	Yes
Operating temperature (T-T)	0 - 40 °C
Quick installation guide	Yes
Package depth	350 mm
Package height	395 mm
AC adapter included	Yes
Package width	500 mm
Bandwidth control	Yes
Reset button	Yes
Warranty card	Yes
Web-based setup wizard	Yes
Dynamic DNS (DDNS)	Yes
Number of guest networks (2.4 GHz)	1
Processor frequency	1500 MHz
Web-based management	Yes
WPS push button	Yes
VPN server	OpenVPN, PPTP
Flow control support	Yes
Number of guest networks (5 GHz)	1
Output current	1 A
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Wi-Fi standards	802.11a
Ethernet LAN	Yes
Linux operating systems supported	Yes
Mac operating systems supported	Yes
System event log	Yes
Windows operating systems supported	Windows 10
SIM card slot	No
Top Wi-Fi standard	Wi-Fi 6 (802.11ax)
Processor cores	2
Power source type	DC
Built-in processor	Yes
Antenna design	External
Product colour	Black
Guest access	Yes
Network address translation (NAT)	Yes
Access Control List (ACL)	Yes
DMZ support	Yes
IP address filtering	Yes
WLAN data transfer rate (first band)	574 Mb/s
WLAN data transfer rate (second band)	1201 Mb/s
Ethernet WAN	Yes
Port forwarding	Yes
Static route	Yes
WLAN data transfer rate (max)	1800 Mb/s
Antenna connector type	SMA
DHCP client	Yes
DHCP server	Yes

Full product description

Wi-Fi 6

The latest generation of **Wi-Fi networks** features high speeds, reduced latency and increased performance - so your network can support even more devices.

Superfast Wi-Fi 6

Download HD movies over Wi-Fi in 10 seconds. 1024-QAM improves encoding performance by 25%, and improved modulation speed increases data rates by 11%. All of this increases throughput and allows you to perform demanding tasks on multiple devices simultaneously.

More connections without sacrificing speed

Enjoy smooth online gaming and simultaneous video streaming - **OFDMA technology** improves Wi-Fi quality by allowing multiple clients to share the same bandwidth, reducing latency and connection instability, while MU-MIMO enables more simultaneous connections.

Wi-Fi throughout the house

Four powerful external antennas provide Wi-Fi signals throughout the home, and **Beamforming technology** directs a focused signal toward connected devices, which is especially useful when they are far away.

TP-Link OneMesh™

OneMesh™ is an easy way to create a Mesh network with a single Wi-Fi name for seamless coverage throughout your home - just connect the OneMesh™ amplifier to the OneMesh™ router. You'll never have to search for a stable connection again.

WPA3

WPA3 is the latest security protocol that provides greater security for Wi-Fi networks, particularly protection of Wi-Fi passwords and protection against brute-force attacks.

Five types of connections

ISPs often have different types of connections, and TP-Link is aware of this. That's why the **Archer AX23** supports five connection types, including the most popular - L2TP and PPTP.

Easy to use

The **Archer AX23** can be set up in minutes using the convenient Tether app (for Android and iOS devices) or via the web interface.

- Notifications - receive notifications about new connected devices and block them from accessing the network.
- Parental control - protect children from inappropriate content and set a limit on the amount of time children can use the Internet.
- Easy firmware update - Over-the-air update allows you to update firmware with a single click on the control panel.
