Price: **200.49 zł** gross / 163.00 zł net

Manufacturer: TP-LINK

Referention number: DNXXGGHIPIRMMHQ

Product features

Product type	Tabletop router
Height	32 mm
USB charging port	Yes
Firewall	Yes
URL filtering	Yes
Memory card slot(s)	No
Width	215 mm
Depth	117 mm
4G	No
Security algorithms	WEP
Cables included	LAN (RJ-45)
USB 2.0 ports quantity	1
Harmonized System (HS) code	85176990
Ethernet LAN interface type	Gigabit Ethernet
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	1
Filtering	Yes
DC-in jack	Yes
Quick installation guide	Yes
AC adapter included	Yes
Quality of Service (QoS) support	Yes
Reset button	Yes

MU-MIMO technology	Yes
WPS push button	Yes
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Parental control	Yes
Wi-Fi standards	802.11a
Ethernet LAN	Yes
SIM card slot	No
Top Wi-Fi standard	Wi-Fi 5 (802.11ac)
Processor cores	2
Power source type	AC
Built-in processor	Yes
Antenna design	External
3G	No
Antennas quantity	4
Product colour	Black
WLAN data transfer rate (first band)	300 Mb/s
WLAN data transfer rate (second band)	867 Mb/s
Ethernet WAN	Yes
WLAN data transfer rate (max)	1200 Mb/s
DHCP client	Yes
DHCP server	Yes
3G/4G USB modem compatibility	No
DSL WAN	No

Full product description

Gigabit Wireless Router MU-MIMO, AC1200

Enjoy stable and fast internet in every corner of your home. **Archer C6U** fully supports gigabit Ethernet speeds of up to 1200 Mbps. It operates in two bands - **2.4GHz** band that provides up to **300MB/s**, and **5GHz** band that provides up to **867MB/s**. Four external antennas combined with **Beamforming** technology ensure perfect coverage. In addition to the basic router function, the device can also serve as an access point. With the smartphone app Tether, the Archer C6U is quick and easy to set up.

Dual-band AC1200 networking

The router is ideal for work and play. For normal Internet use and correspondence, the lower bandwidth of 2.4 GHz (300 Mbps) is used. For more demanding operations, such as playing online games or streaming high-quality video, the Archer C6U will use the higher bandwidth **5 GHz at 867 MB/s**.

Perfect coverage

Forget about dead zones. Beamforming technology with four external antennas provides excellent coverage and signal propagation throughout the home.

MU-MIMO technology

Don't be afraid to connect all your home devices to the Internet. **MU-MIMO technology** ensures fast speeds even with multiple connected devices without overloading, lagging, or slowing down the Internet.

Multimedia centre

There is a **USB port** on the side of the router where you can connect a **USB** stick or an external drive and create a home multimedia center. You'll also find LAN ports for wired connection to devices such as monitors, TVs and game consoles.

Access point functions

You can switch from being a router to an access point in an instant. You'll appreciate this if you want to share your wired network with other wireless devices.

To równocześnie punkt
dostępowy

Tether application

Download the **Tether** app on your phone, which will guide you step-by-step through the initial setup of your router. Moreover, here you can easily and clearly manage your network and all connected devices.
