Full product description

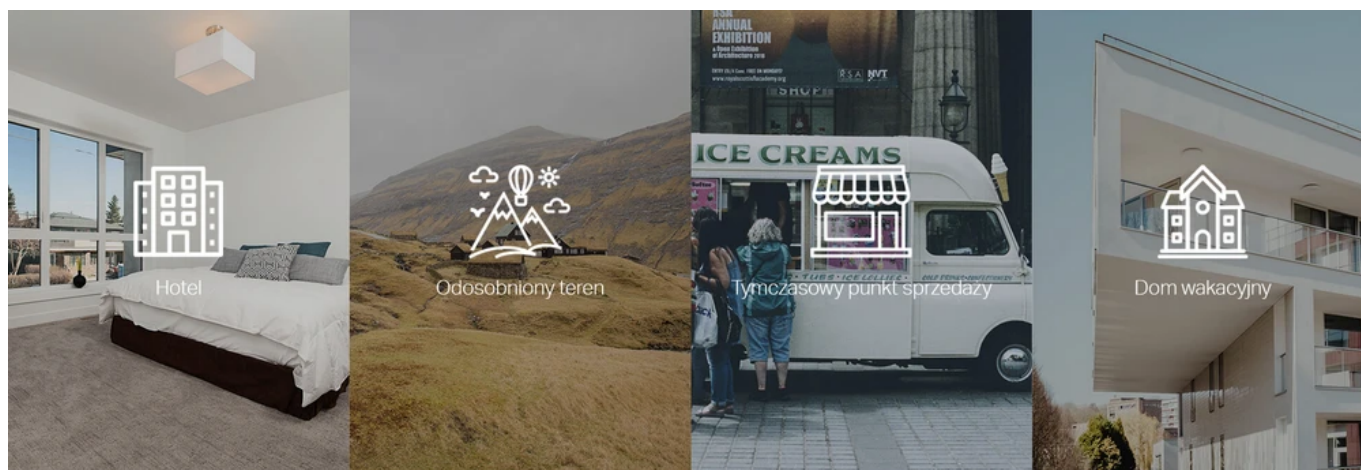

Archer MR600 - 4G+ wireless router

The **Archer MR600** mobile router will give you fast and consistent wireless Internet access, whether you're at home or working remotely. You can use it at home and on the go - just insert your SIM card and connect your laptop and other devices to the Internet in no time.

Unmatched versatility and convenience

Enjoy wireless transfer wherever you are! If you can't connect via an ADSL or satellite modem, such as at a campsite, on a boat, on a construction site or on the move, the **Archer MR600** allows you to establish a 4G+ connection. Two external antennas provide optimal 4G reception for high speed and a stable connection wherever you want it.

Twice as fast as regular 4G routers

With the **Archer MR600** you can enjoy a **4G+ Cat6** network. **Carrier Aggregation** technology increases data transfer rates to **300 Mbps**. Connect your SIM card and watch 4K videos without cuts or delays, download files in seconds and play with smooth animations.

Plug & Play

All you have to do is insert your SIM card and you are connected! With the **TP-Link Tether** app, you'll be able to manage your network settings, network access or parental control from Android or iOS devices.
