Full product description

Archer T2U Nano dual-band network card

The **Archer T2U Nano** is a wireless USB adapter that supports two separate Wi-Fi bands. Thanks to **256 QAM** technology, this network card provides a **33% higher network performance** - speed in the 2.4 GHz band of up to 200 Mbps. **433 Mb/s** in the 5 GHz band is ideal for **streaming HD** quality video and playing delay-sensitive **games online**, while **200 Mb/s** in the 2.4 GHz band is ideal for everyday web surfing.

Even faster wireless connections on your computer

Archer T2U Nano boasts really good speeds, in the 2.4 GHz band the connection speed is as high as 200 Mbps and in the 5 GHz band it is up to 433 Mbps. Anyone looking for faster connections will find them in this wireless USB adapter.

Enjoy full mobility with seamless roaming

The need to move with your device has its drawbacks, as it requires constant search for new Wi-Fi. Archer T2U Nano supports **roaming Wi-Fi**, so when you change location, your devices **will automatically connect with an optimal network**, avoiding interruptions in Internet access. The small, pocket-sized Archer T2U Nano is undoubtedly the perfect choice

Archer T2U Nano AC600 Nano Wireless USB Adapter - plug it in and forget about it

The T2U Nano fits into any USB port. Thanks to its small size and clever design, you can leave it plugged into the port, both at home and on the go.
