Full product description

TP-LINK Archer T2UH AC600 dual-band USB WiFi adapter

TP-LINK Archer T2UH supports modern standard of **802.11ac** Wi-Fi network. Archer T2UH offers enough bandwidth for smooth streaming of HD video, online games and other bandwidth-intensive activities. In addition, its sleek design can become an adornment of your home and office desk.

Archer T2UH allows all devices to connect at speeds up to **433 Mbps in the less loaded 5 GHz band** or **150 Mbps in the 2.4 GHz band**, which is typically used by most Wi-Fi networks today. The latest **802.11ac** Wi-Fi standard is several times faster than previous standards, but only modern devices support it. The external Wi-Fi adapter TP-LINK Archer T2UH can be the solution, connected via USB, it can extend the connectivity even with older computers.

Detachable external antenna

The **ARCHER T2UH** adapter is equipped with an external antenna with **3 dBi** gain, which provides much better performance than internal antennas. Moreover, the antenna can be tilted or replaced with a stronger alternative if necessary.
