Price: **249.00 zł** gross / 202.44 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGKNKHRMMIK

Information:

Extralink SolarEye is a completely wireless surveillance camera with a 5200 mAh battery and a solar panel included, ideal for home and business use. It offers Full HD 1080p image quality, motion detection, two-way intercom, and remote control and live viewing via the Extralink Smart Life and Tuya apps. Thanks to 2.4 GHz WiFi connectivity, support for a Micro SD card up to 128 GB, and real-time notifications, it provides convenient monitoring and fast response. IP54 resistance allows safe outdoor installation, while solar charging increases independence and ease of use.

Product features

Antenna type	Internal
Cartridge type	18650
Sensor type	CMOS

Full HD 1080p matrix and intercom function

The **Extralink SolarEye** camera has a **Full HD 1080p** sensor, providing high image quality and detail in the recorded footage. This results in clear and crisp recordings that make it easy to identify people and events. In addition, the camera has a **two-way intercom function** for real-time communication between the user and the person present in front of the camera. This is a useful tool for remote monitoring and communication.

It has a two-way intercom function for real-time communication between the user and the person in front of the camera

Weather resistance

The **Extralink SolarEye** is also rugged and weatherproof thanks to its **IP54 rating**. This means that the camera is protected from rain and dust, allowing it to be installed outdoors without fear of damage.

Weather resistance

Dedicated Extralink Smart Life and Tuya application

A dedicated **Extralink Smart Life mobile app and Tuya** are used to manage the **Extralink SolarEye** camera. The app allows you to remotely access the camera's video and settings from anywhere using a smartphone or tablet. You can easily check recordings, adjust camera settings and receive notifications when motion or other events are detected.
