Full product description

AC1300 USB Wireless Network Adapter

High-speed Internet connection is an absolute must today. The **Archer T4U** USB adapter will connect you to a modern WiFi network with **ultra-fast and stable connection without any delays**. This allows you to play online games or stream HD video. The Archer T4U has **two built-in high gain antennas**. This means that you will have a high quality signal even in places far away from your WiFi router.

Next generation wireless performance

The adapter offers the possibility to use **802.11ac** technology **in the 5 GHz** or **2.4 GHz band with 802.11n technology**, which guarantees high flexibility of use. It provides very high performance wireless network up to **300 Mbps (2.4 GHz) or 867 Mbps (5 GHz)**. The 2.4GHz band is ideal for networking, social networking and email, while the 5GHz band enables seamless HD streaming and multiplayer online gaming, ensuring extremely fast and seamless home entertainment.

Features of the device :

1. **Ultra-fast Wi-Fi** - 1300Mbps wireless speeds (400Mbps in the 2.4GHz band and 867Mbps in the 5GHz band), support for 802.11ac - the new generation of wireless connections
2. **Two bands** - 2.4GHz and 5GHz bands allow connection to any network
3. **Directional antennas** - increased range, better signal quality and transmission performance
4. **MU-MIMO** - provides high-performance wireless connectivity
5. **Superfast USB 3.0** - up to 10 times faster than USB 2.0
6. **WPS button** - easy one-press WPS button secure wireless connection

MU-MIMO technology

The **Archer T4U** is equipped with **MU-MIMO** technology, so it is able to create two data streams at the same time, improving the bandwidth and performance of the entire network when connected to a MU-MIMO-compatible router.
