Full product description

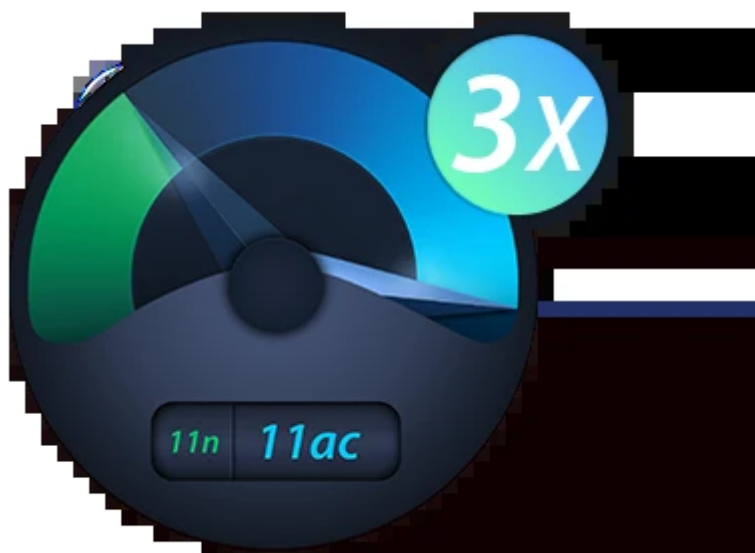

Wireless USB network card

TP-Link Archer T4UH a long range wireless USB network card . The device supports **802.11ac** standard, and operates in two bands reaching a total of **1300Mbps** **USB 3.0** port - 10 times faster than USB 2.0, and a **WPS** button to quickly establish an encrypted connection. In addition, high power antennas ensure long range and efficient connections.

The new generation of WiFi

The Archer T4UH TP-LINK network card supports wireless **802.11ac** connections with 3 times higher speed than previously available **802.11n**. Thanks to transmission speed of **867Mbps** in the interference-free **5GHz** band or speed **400Mbps** in the traditional **2.4GHz** band. The device is the best possible choice for applications such as HD video streaming, online games and other demanding office or home applications.

Transmission in two bands

Transmission at **867Mbps** in the **5GHz** band is ideal for streaming HD video or online games. The **400Mb/s** speed in the traditional **2.4GHz** band is for everyday network use.
