Price: **169.00 zł** gross / 137.40 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGKOLLRMMNL

### Full product description

#### Extralink smart temperature and humidity sensor with ZigBee support

Extralink Smart Life Temperature and Humidity Sensor is a smart sensor that detects ambient temperature and humidity values. The sensor connects to the [Extralink Smart Gateway](#) via ZigBee protocol and allows you to create smart home scenes.

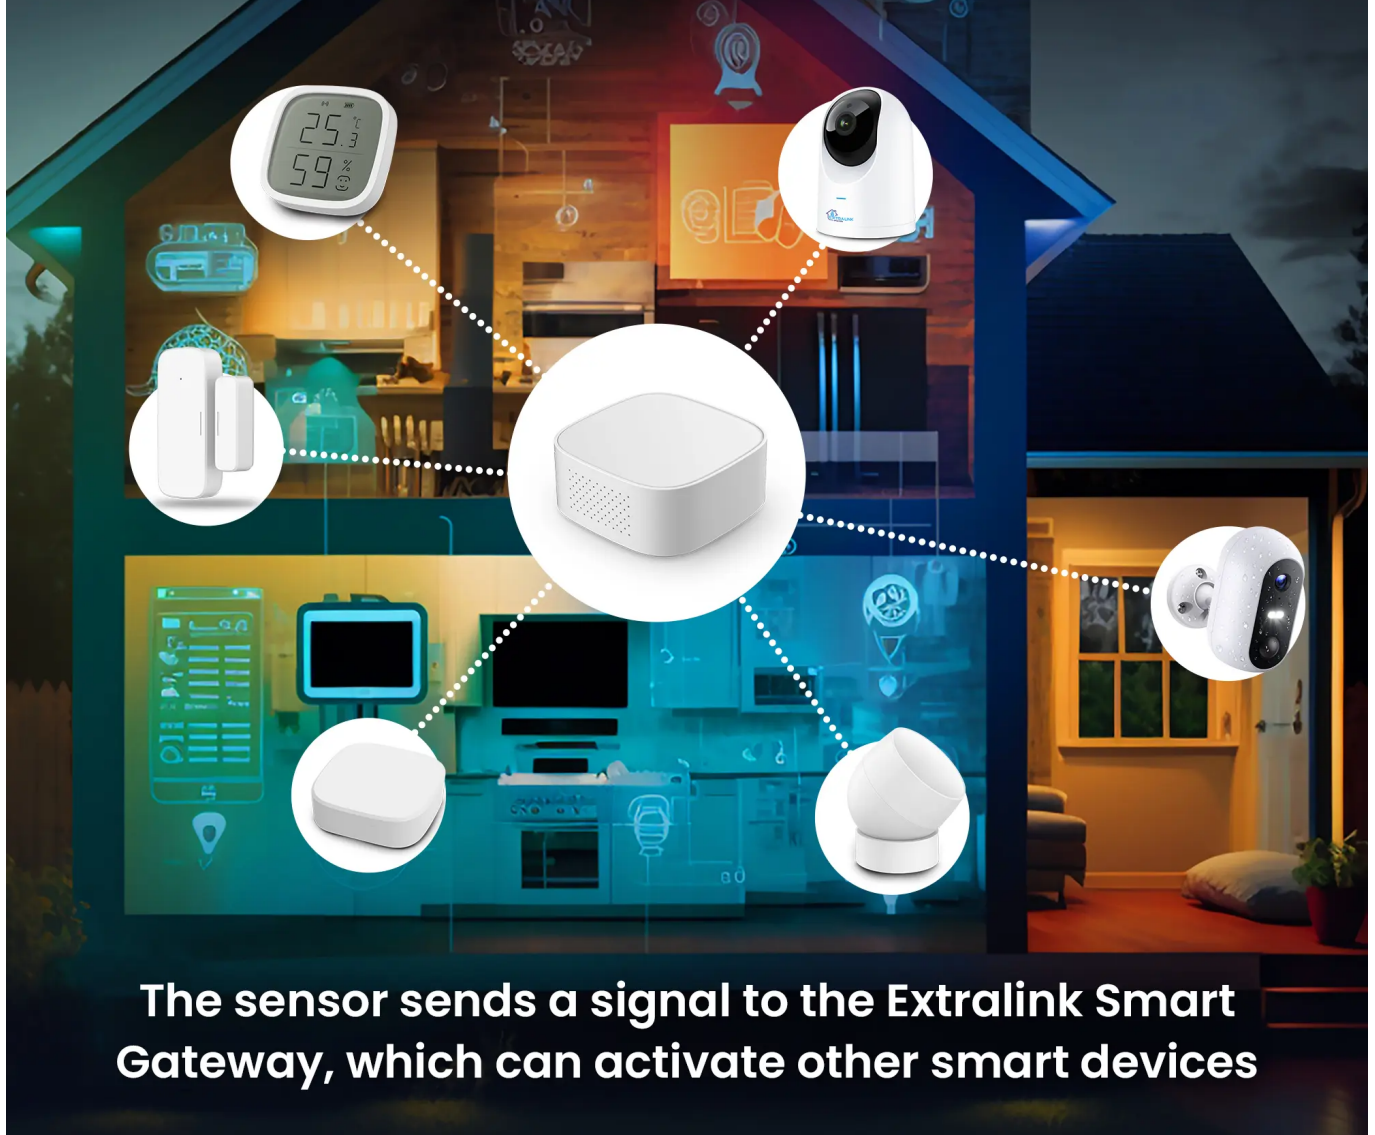

# Intelligent temperature and humidity sensor with ZigBee support

## Real-time monitoring and display of temperature and humidity changes

The Extralink sensor detects ambient temperature and humidity values and displays temperature and humidity values on an easy-to-read LCD screen. The sensor sends a signal to the multifunction gateway [Extralink Smart Gateway](#), which can activate other smart devices.

**The sensor connects to the Extralink Smart Gateway via the ZigBee protocol and allows the creation of smart home scenes**

**The sensor sends a signal to the Extralink Smart Gateway, which can activate other smart devices**

### **Precise monitoring of temperature and humidity**

Using the latest IoT sensor from Swiss company Sensirion, it can accurately monitor changes in ambient temperature and humidity.

# WIDE RANGE OF APPLICATIONS

The sensor can be used at home, office, car, schools, hotels, kindergartens, workshops, etc.

## Expression display

The ambient comfort level is clearly visible on the device's screen by displaying a smiling face for good conditions and a sad face for worse ambient conditions.

# EASY TO READ

The sensor has 2 symbols. When the humidity is between 40% and 70%, it shows a smiling face. If the humidity is lower than 40% or higher than 70%, an unsatisfactory message is displayed.

40% – 70%

<40% / >70%

## Dual airflow design

Thanks to Extralink's unique sensor design, the speed of response to changes in temperature and humidity increases by 60%.

## INSTALLATION METHOD

### Extralink Smart Life Ecosystem

Extralink Smart Life is a **comprehensive smart home ecosystem** that integrates lighting, electronics, cameras, video intercoms, sensors and pet feeders. The system allows easy automation and management of various devices through a single control panel, providing convenience and security.
