### Full product description

## TP-Link Deco M5 AC1300 Whole Home Mesh Wi-Fi System: Reliable Internet in Every Corner of the Home

**TP-Link Deco M5 AC1300 Whole Home Mesh Wi-Fi System** is an all-in-one solution for providing continuous Internet access throughout the home. With state-of-the-art mesh technology, this router guarantees **a robust and stable Wi-Fi connection**, eliminating dead zones and providing full network coverage.

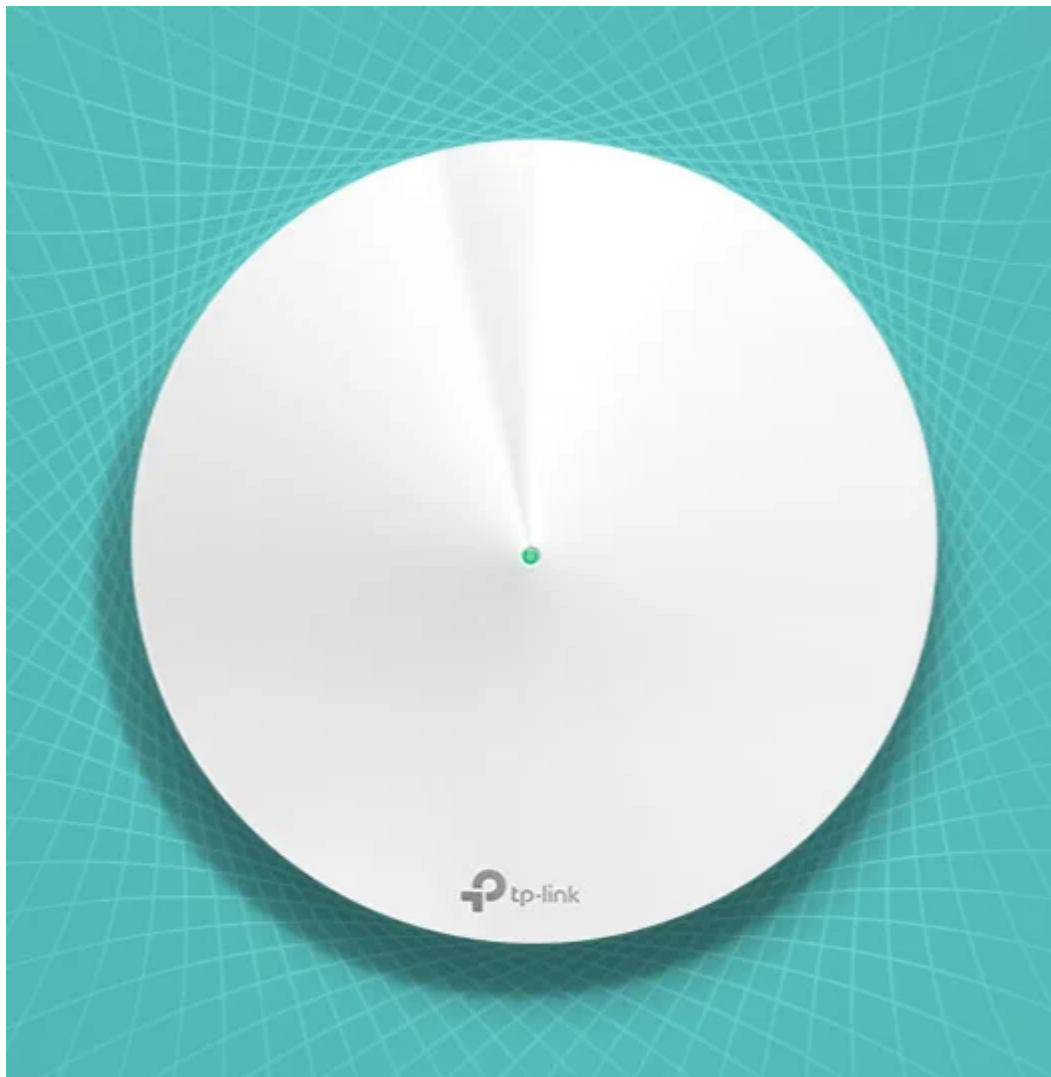

### Dual-band Wi-Fi Technology

The **Deco M5** operates in two frequency ranges - **2.4 GHz and 5 GHz**, enabling better bandwidth management and minimizing interference. It supports the highest **Wi-Fi** standard, **Wi-Fi 5 (802.11ac)**, offering a maximum data rate of **1267 Mbit/s**. This allows users to enjoy faster Internet speeds and lower latency, which is ideal for **streaming, online gaming and remote work**.

### Elegant Design and Ease of Installation

The device features a sleek **white design** that will easily blend in with any interior decor. With its **internal antennas** and compact design, **the Deco M5** not only provides efficient performance, but also **an aesthetically pleasing appearance**.

## Advanced Security Measures

Network security is a top priority for the **TP-Link Deco M5**. The router offers **an SPI firewall** and **WPA-PSK/WPA2-PSK** encryption , which effectively protects against unauthorized access. This comprehensive security allows you to use **the Internet** with peace of mind, without worrying about your privacy and personal information.

## Resistance to Environmental Conditions

**The Deco M5 router** is designed to operate reliably in a variety of environmental conditions. It can operate in temperatures **from 0 to 40°C** and supports humidity levels from 10 to 90%, ensuring reliability and durability in all conditions.
