Price: **360.08 zł** gross / 292.75 zł net

Manufacturer: TP-LINK

Referention number: DNXFMPNKERMMLJ

Product features

Height	38 mm
Width	120 mm
Depth	120 mm
Package weight	630 g
Package depth	194 mm
Package height	101 mm
Package width	195.5 mm
AC input frequency	50 Hz
AC input voltage	100 V
AC adapter output current	1.2 A
AC adapter output voltage	12 V
WLAN data transfer rate (first band)	400 Mb/s
WLAN data transfer rate (second band)	867 Mb/s
WLAN data transfer rate (max)	1267 Mb/s

Full product description

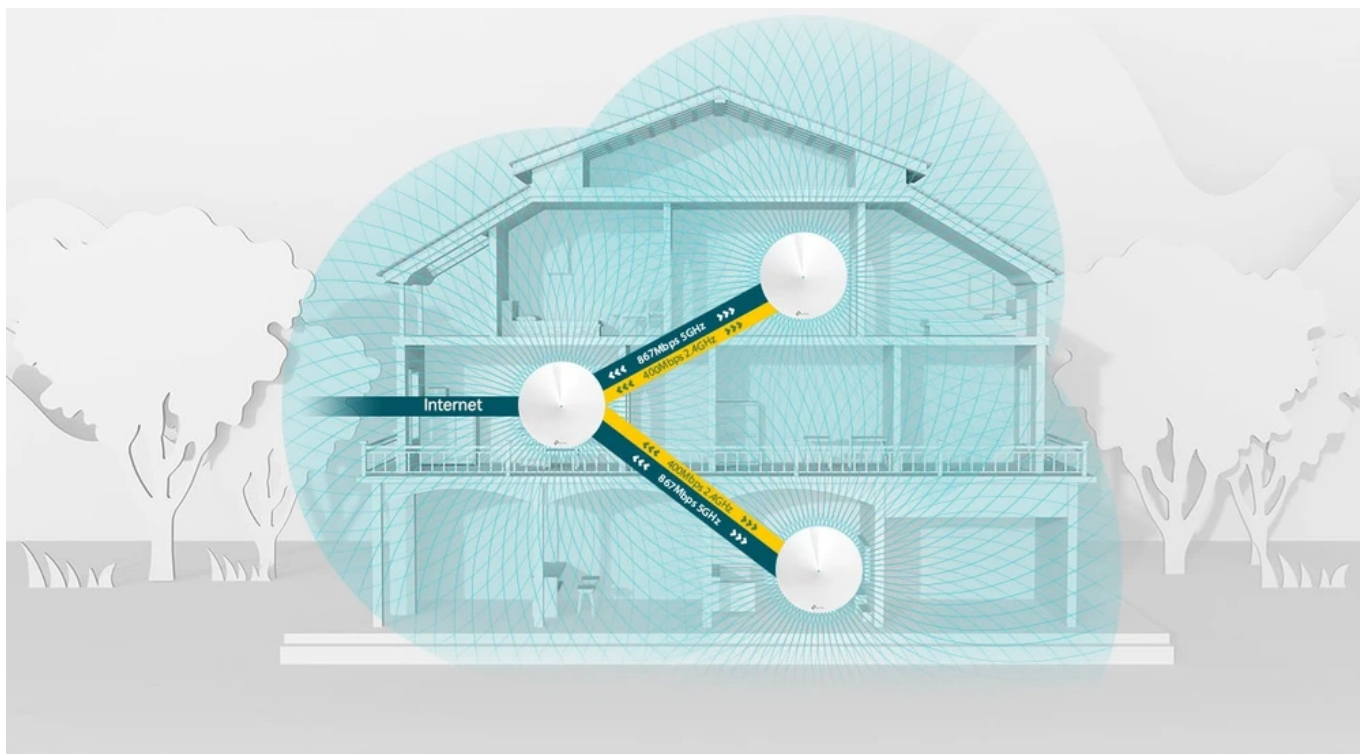

TP-Link Deco M5 - Mesh Wi-Fi to your home

The best connection at any time and in every room? **Deco M5** is the complete WiFi solution you have been waiting for. This system provides uninterrupted WiFi throughout the house, so you can enjoy a fast and stable network connection on any device in each room. **The AC1300 offers excellent speed and WiFi range up to 150 m² with a single device, additionally, Deco M5 is equipped with the latest security system.**

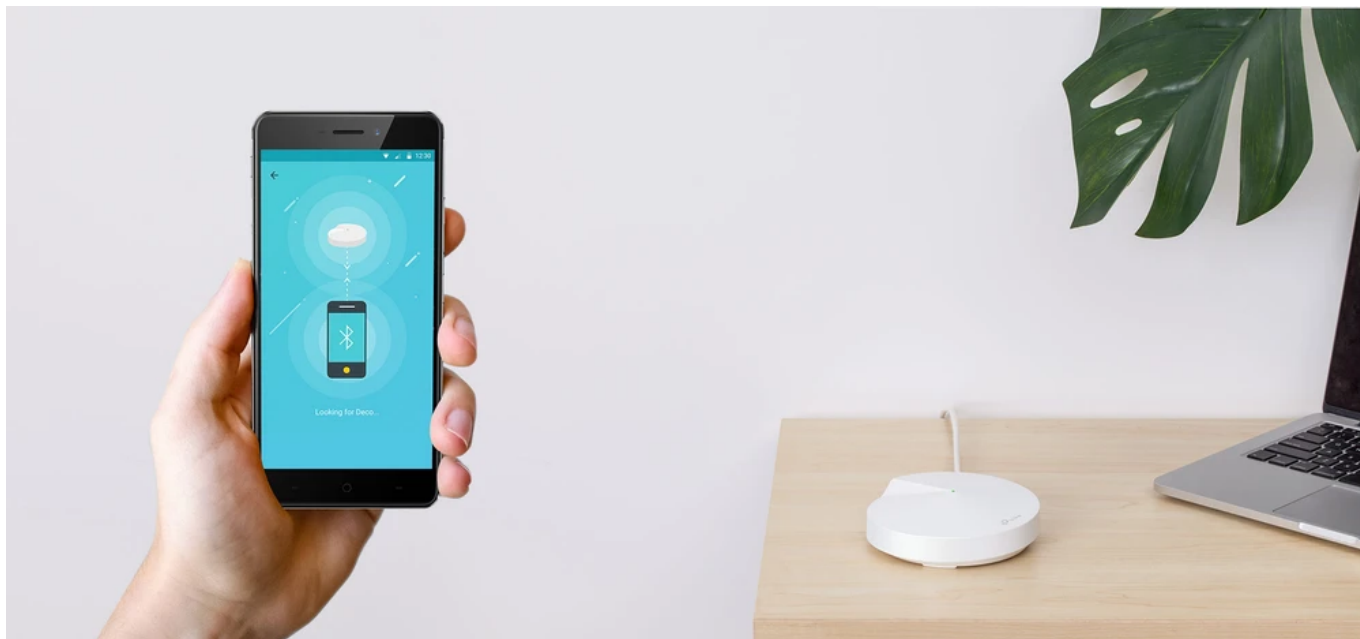

Eliminate weak signal areas once and for all

This new type of WLAN product overshadows everything that was before. It doesn't matter what your home is. Enjoy uninterrupted connections whether you're in the kitchen on the ground floor or in the upstairs bedroom. **Connect your Deco M5 and provide an area of even 150m² with great coverage.** If you need more range, connect more Deco routers to your network.

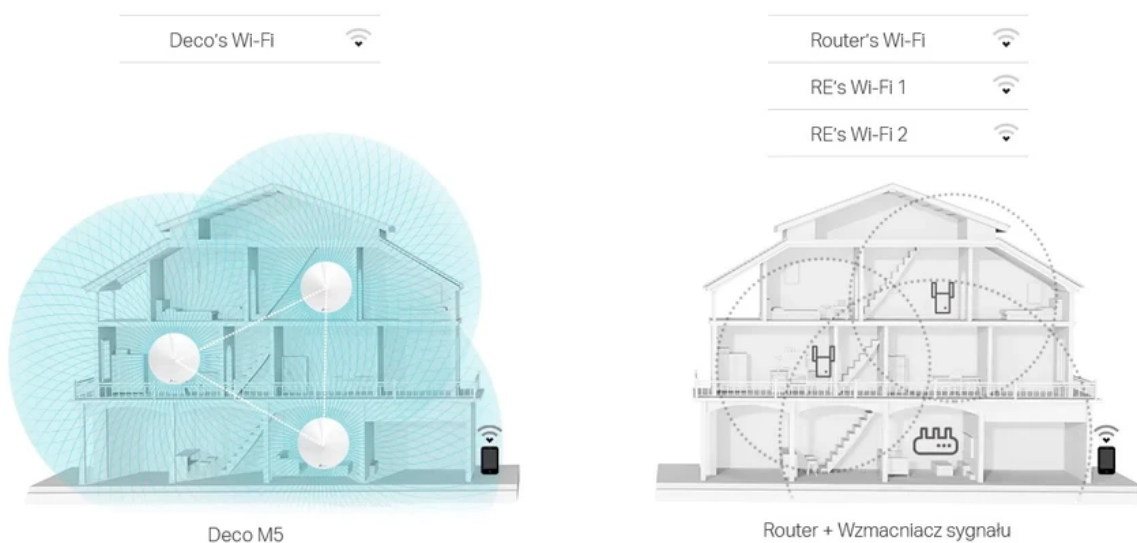

Configuration - a simple matter!

You don't have to worry about configuring **Deco M5** on your own. Just unpack the box and install the app on your smartphone, then follow the instructions on screen in a few simple steps. **The Deco app will give you access to your network in minutes.** It's easier than you think.

Freedom of movement without loss of connection

The device's operating characteristics are based on the innovative **DECO MESH** technology used by the manufacturer. The devices connect with each other, creating together an integrated WIFI network under one name. **The ART (Adaptive Routing Technology) function automatically connects your terminal devices to the Deco router, which at any given time sends the best WIFI signal.** This ensures that no matter where you are at home, you will always enjoy an uninterrupted high speed Internet connection. **Whether you're operating in the 2.4 GHz or 5 GHz band, ART always automatically selects the correct frequency on your device.** So you can move from room to room while streaming, downloading or surfing without interruption.

High-speed connection guarantee

You're tired of the constant caching? Thanks to the manufacturer's **802.11ac** Deco M5 technology, it offers a stable connection speed of up to **1267Mbps** and is compatible with all cable modems. **Moreover, the Deco system can handle up to 100 wireless devices on the network.**
