Price: **137.08 zł** gross / 111.45 zł net

Manufacturer: TP-LINK

Referention number: DNXXGOLFJRMMON

Product features

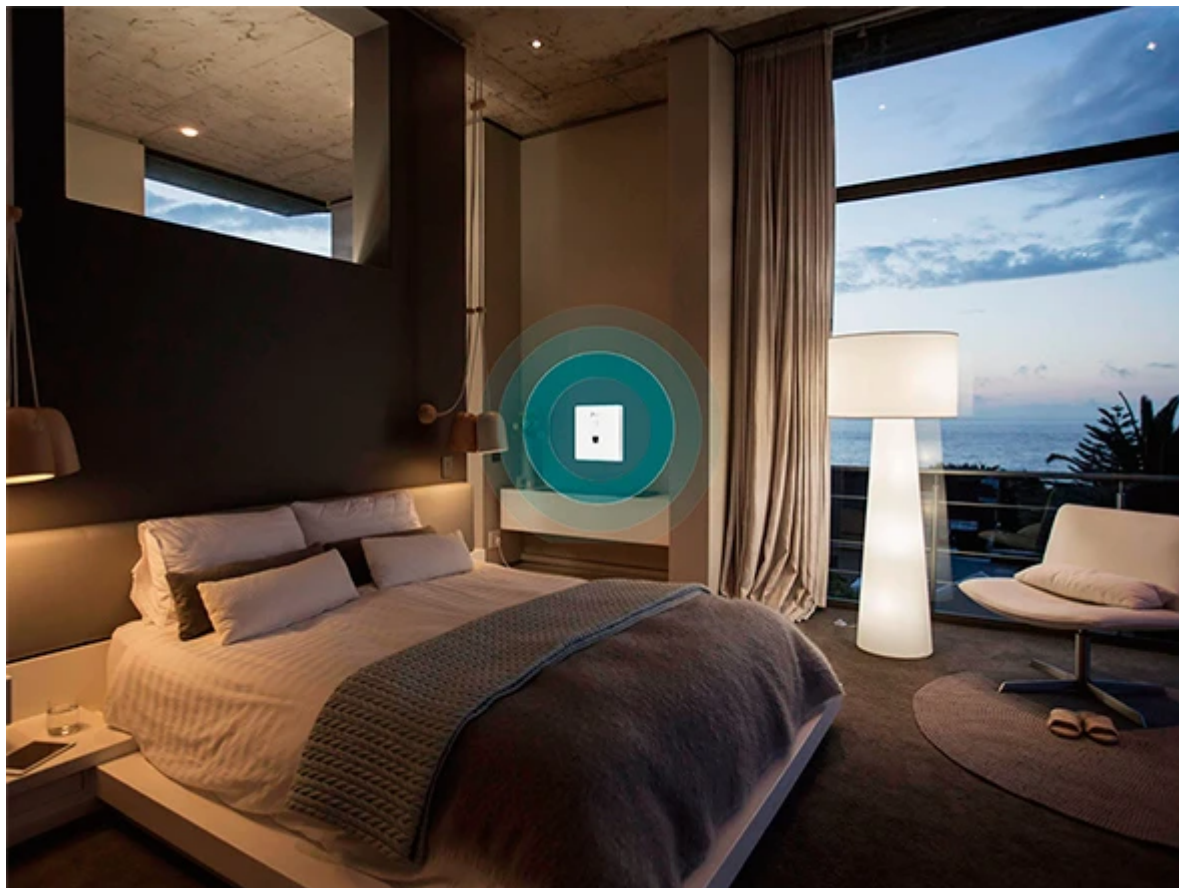

Storage relative humidity (H-H)	5 - 90%
Height	30.2 mm
Antenna type	Internal
LED indicators	Yes
WAN connection	Ethernet (RJ-45)
Width	86.8 mm
Depth	86.8 mm
Security algorithms	802.1x RADIUS
Virtual LAN features	Port-based VLAN
Wi-Fi Multimedia (WMM)/(WME)	Yes
Mounting kit	Yes
Storage temperature (T-T)	-40 - 70 °C
Syslog	Yes
Compliance certificates	CE
Maximum data transfer rate	300 Mb/s
Rate limiting	Yes
Package weight	190 g
Power consumption (typical)	2.8 W
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85176990
Quick start guide	Yes
Networking standards	IEEE 802.11b

Ethernet LAN (RJ-45) ports	2
Antenna gain level (max)	1.8 gain
Operating temperature (T-T)	0 - 40 °C
Package depth	130 mm
Package height	47 mm
Package width	118 mm
Cabling technology	10/100Base-T(X)
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Management protocols	SNMP, Telnet
Cable lock slot	No
Web-based management	Yes
Service Set Identifier (SSID) features	Multiple SSIDs
Power over Ethernet (PoE)	Yes
Placement	Wall
Wireless isolation	Yes
Power over Ethernet (PoE) type supported	Passive PoE
Antennas quantity	2
Number of SSID supported	8
Antenna direction type	Omni-directional
Antenna features	Integrated antenna
Product colour	White
Access Control List (ACL)	Yes
MAC address filtering	Yes
Automatic channel selection	Yes
Maximum data transfer rate (2.4 GHz)	300
Internal	No
6 GHz	No
5 GHz	No
2.4 GHz	Yes
Operating system	Windows XP, Windows Vista, Windows 7, Windows 8, Windows 10
Sustainability compliance	Yes

Full product description

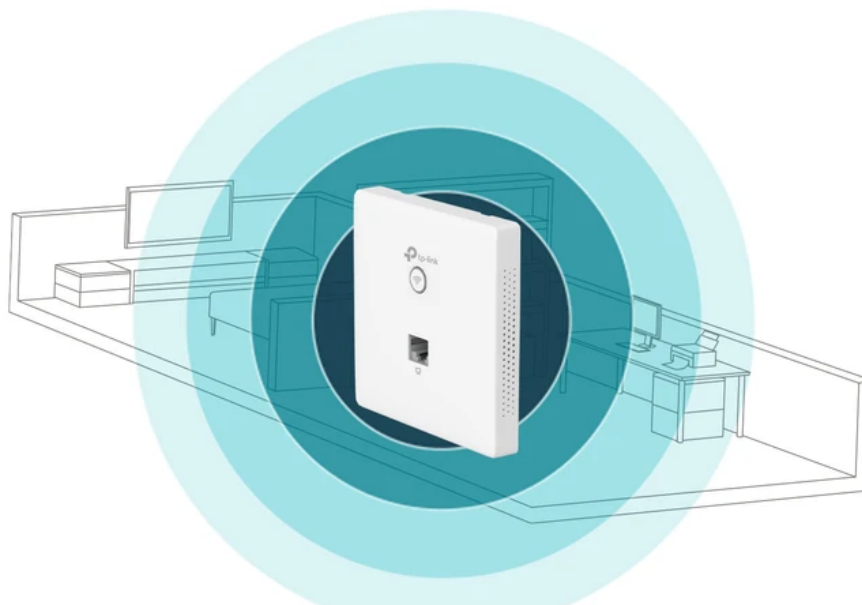

TP-link EAP115-WALL - wall-mounted access point

TP-link EAP115-WALL is a **wireless, wall mounted access point** N300. Its construction and compact size make it ideally suited to any interior, and installation in a standard installation housing is extremely simple. The device has **Auranet** management software allowing for central management of the wireless network and operation of **PoE 802.3af**. Business-class security protects **WiFi** against external attacks.

Wide range wireless network

By placing EAP devices in each room, we can guarantee a strong network signal and the possibility of creating a separate **wifi network for guests**.

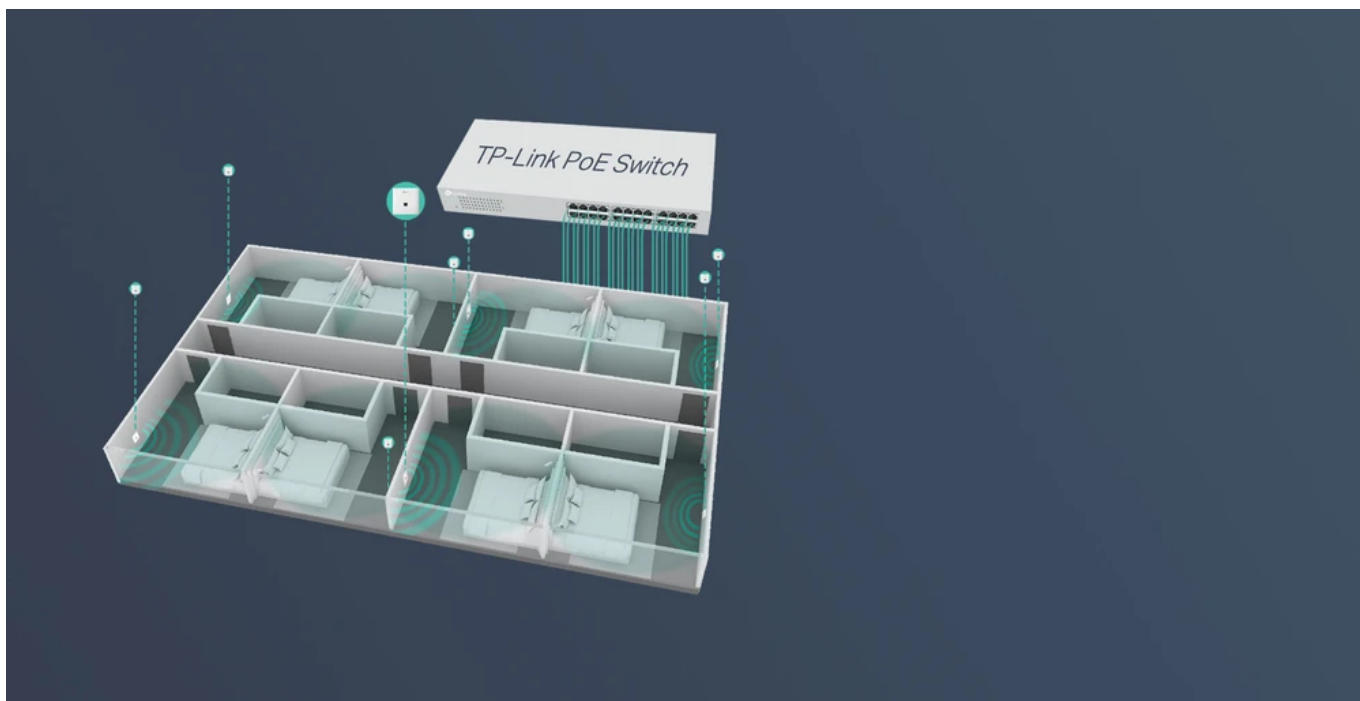

Great design

EAP115-Wall is a device with a minimalist design, so it will fit into any room without any problems. It is also amazingly lightweight because its housing only 11mm thick.

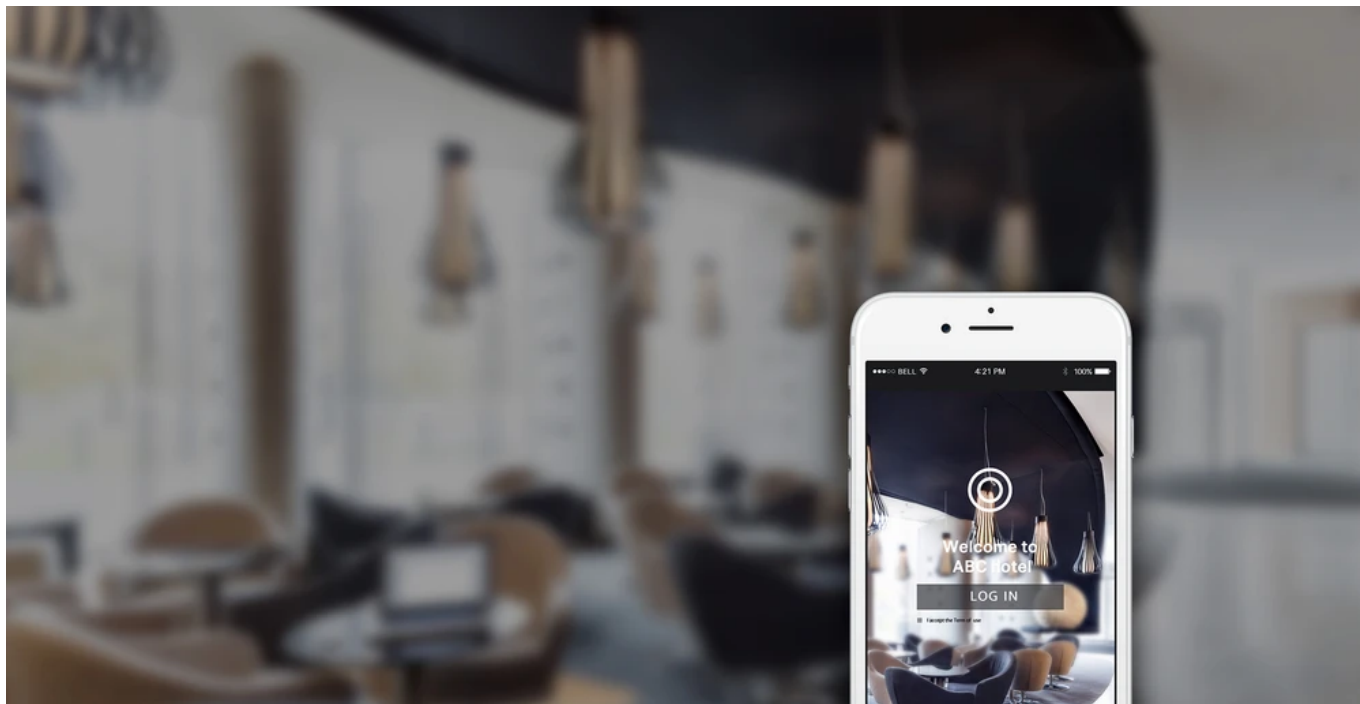

Convenient mounting

The support of the **PoE standard 802.3af** completely eliminates the need for additional cabling. Simply connect existing Ethernet cables.

Welcome page

Authentication of wireless clients via the welcome page is an extremely convenient option. This method requires the user to perform appropriate actions (e.g. log in to the system) - in order to gain access to the network. These actions are then verified by an appropriate server or database - prepared by the network administrator.

Easy central management

Now you can easily manage hundreds of **EAP** devices from one place. The free **Auranet** management software uses an intuitive interface, so no additional training is required. Managing a wireless network has never been so easy and economical.
