Full product description

Desktop Switch, 5 ports 10/100/1000Mbps

TP-Link **LiteWave** Series Unmanaged Switches provide an easy and affordable way to expand your wired network. With plug-and-play switches, you can instantly expand your network connections to multiple devices. All ports support **Auto-MDI / MDIX**, so you don't have to worry about the type of cable you use.

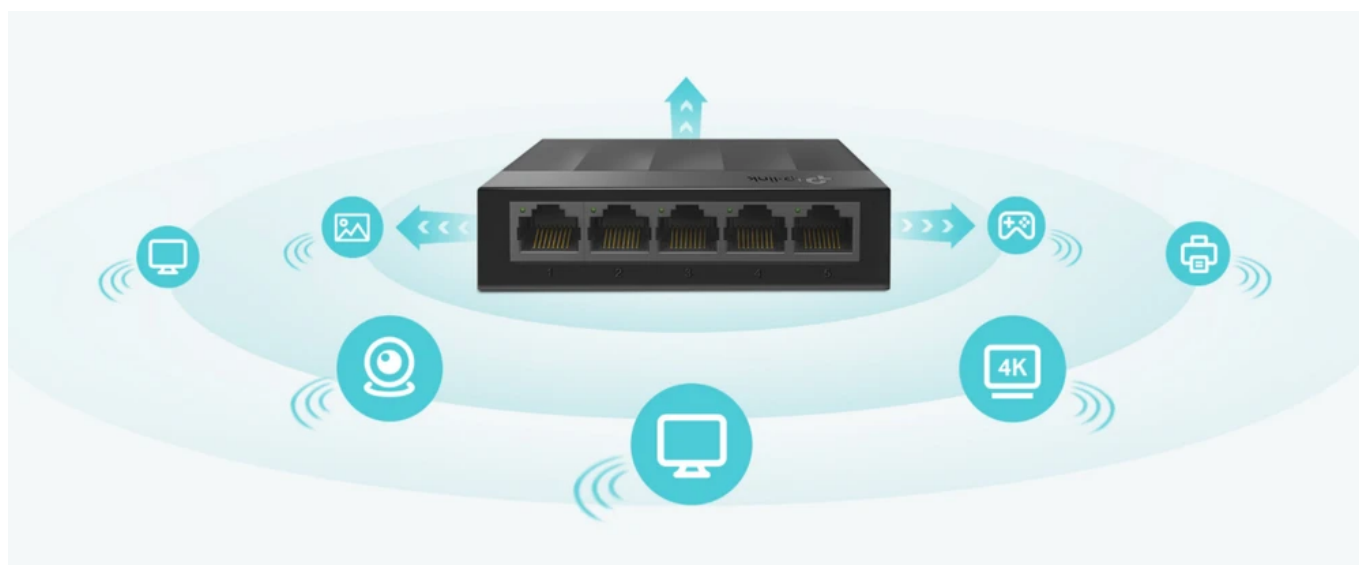

Go green with your Ethernet network

The LiteWave series also supports energy-efficient technology, helping you save energy and money. **Power consumption automatically adjusts based on link status and cable length.**

Gigabit ports for faster speeds

Increase your network speed with the **LS1005G** 5-port desktop Gigabit switch. The 5×10/100/1000Mbps ports allow you to transfer large bandwidth-hungry files instantly without interruption.

Use where and how you need it

The **S1005G** is fully compatible with network devices such as computers, printers, webcams, IPTVs. The device has a wide range of application scenarios and is great for networking in school dorms, homes or small businesses.
