Full product description

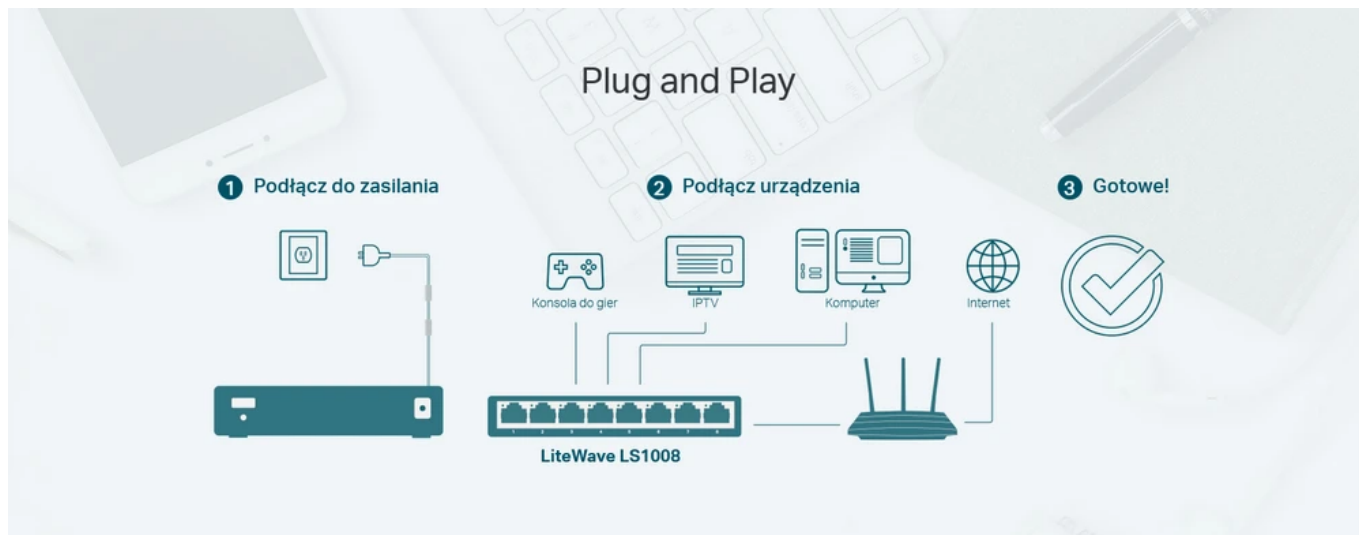

Desktop Switch, 8 ports 10/100 Mbps

The TP-Link LiteWave Series Switch is an easy and affordable way to expand your Ethernet network. **This switch features simple operation and high reliability.** Thanks to plug and play installation, the network can be expanded with other devices very quickly. The device offers a total of 8 RJ45 ports with auto-adaptive 10/100 Mbps supporting **Auto-MDI / MDIX**.

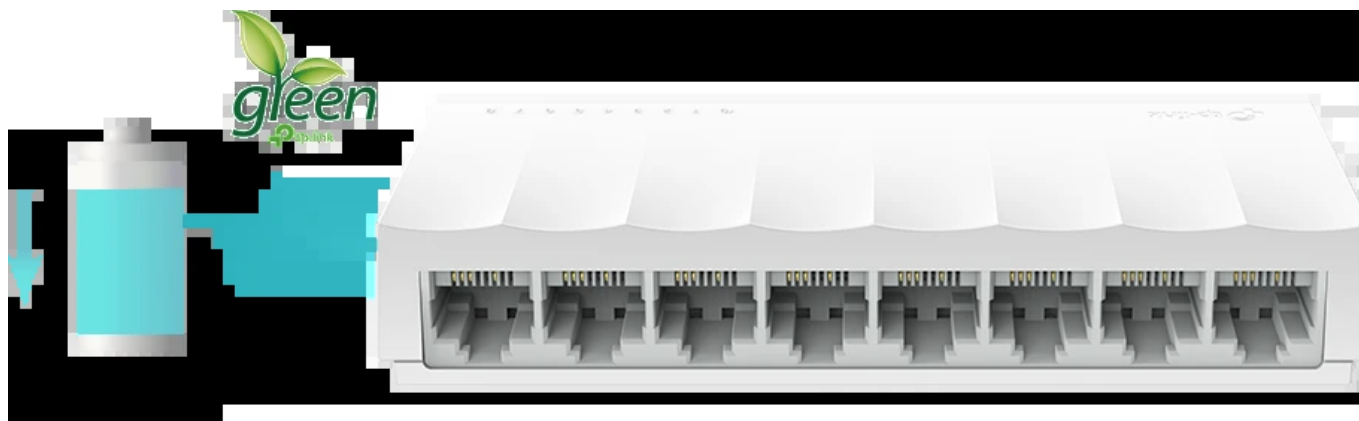

Plug and Play installation

Simply plug the TP-Link LiteWave **LS1008** into an outlet, then connect a device such as a game console, IPTV, or computer. Nothing else is needed - you can enjoy fast access to your network.

Go green with your network

The LiteWave product line includes a wide range of energy-efficient technologies that save energy and money. **Power consumption is automatically adjusted based on connection status** and cable length allowing you to expand your network with minimal energy consumption

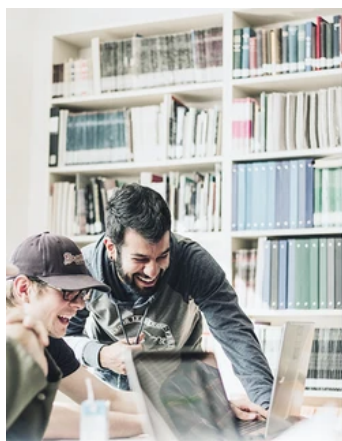

High-quality plastic housing

The outer casing of the **LS1008** switch is made of lightweight but durable plastic, ensuring a long life for the device. In addition, the product meets a number of rigorous reliability tests. Its compact size makes it ideal for installation in homes or workshops.

Use where and how you want

The LS1008 easily communicates with network devices such as computers, printers, webcams and IPTV. It is ideal for use in dormitories, homes or small businesses.
