Full product description

Extralink Vision Lite Smart Projector - The perfect choice for movie buffs and professionals.

The Extralink Vision Lite projector is a revolution in the world of multimedia projectors thanks to its **attractive price-performance ratio**. It offers spectacular **Full HD 1080p** image quality **on a screen of up to 150 inches** for a cinematic experience at home. Its **long-lasting lamp**, versatile **WiFi6** connectivity options and intuitive operation make it ideal for movie and sports enthusiasts as well as professionals in need of a robust presentation device. The projector's **compact size and stylish design** blend seamlessly into any interior, while advanced

image adjustment features such as **auto focus and automatic keystone correction** allow you to enjoy the perfect picture from anywhere in the room.

The advertisement features a large projection of a soccer match on a screen. To the right, the Extralink Smart Life logo is displayed above the product name 'Extralink Smart Life Projector 500 ANSI'. Below the name are icons for Wi-Fi and Android. At the bottom, a list of features is shown with corresponding icons: 500 ANSI, Android 9.0, 1000:1 contrast, Full HD (1080p), Dual USB input, and Dual HDMI input. In the center, a small image shows the projector unit and a smartphone connected via Wi-Fi.

Extralink Smart Life Projector 500 ANSI

- 500 ANSI

Key features of the Extralink Vision Lite projector

1. **Versatile Use:** The projector is ideal for a wide variety of situations - from movie nights and shared cheering to large room lectures and business presentations, thanks to the special software installed.
2. **Exceptional Picture Quality:** It offers perfect color reproduction, high brightness and supports Full HD (1080p) resolution for an amazing visual experience even when projecting up to 150 inches.
3. **Long-lasting Performance:** The projector's lamp is designed for thousands of hours of use without loss of performance, which translates into years of continuous, trouble-free use.
4. **Ease of Connectivity:** The projector features Wi-Fi 6 for convenient wireless display, as well as dual USB inputs and an HDMI port for easy interfacing with a variety of image sources.
5. **Ease of Use and Aesthetic Design:** The device is extremely easy to use, allowing you to quickly adjust settings, and its neutral color scheme makes it blend in well with any interior.

Connection to **Android 9.0**

The Extralink Vision Lite Smart projector is a multi-tasking device, ideal for both watching films and giving business presentations. Its versatility is due to the pre-installed Android TV 9.0 system, which allows you to personalise the projector's functions with various multimedia applications, adapting it to many needs and circumstances. It is an excellent alternative to conventional home TVs, offering a bigger picture while remaining compact.

Multifunctionality and flexibility with Android TV 9.0

The Extralink Vision Lite Smart Projector is a multi-tasking device, ideal for both watching movies and giving business presentations. Its versatility stems from the pre-installed **Android TV 9.0** system, which allows you to personalize the projector's functions with various multimedia apps, customizing it for a wide range of needs and circumstances. It is an excellent alternative to regular home TVs, offering a larger image while remaining compact.

Superior image quality

The Extralink Vision Lite projector offers exceptionally **clear and sharp images**, achieved by using precision optics and modern materials. Viewed scenes, even those full of action, are presented with unwavering sharpness on a large screen with a maximum diagonal of **150 inches**. The device also provides **faithful color reproduction and high levels of contrast and brightness**, resulting in a breathtaking visual experience. In addition, support for native **Full HD (1080p)** resolution ensures uncompromising clarity of the displayed image.

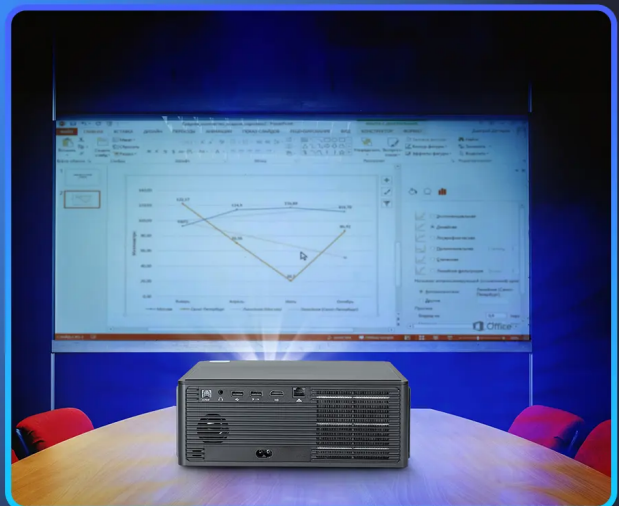

Performance and durability

High performance is ensured by modern components such as a **quad-core processor clocked at 2 GHz** and a **MaliTM-450 graphics chip** with support for OpenGL ES 2.0/1.1/1.0 OpenVG 1.1 libraries. The Extralink Vision Lite projector lamp is designed for long-term use. This is all thanks to the careful selection of materials and a special cooling system that prevents components from overheating.

The versatility of the EXTRALINK projector

The portable intelligent projector can be used for travelling, such as outdoor camping, backyard parties and weddings, but also in the comfort of the home and for company meetings.

Wi-Fi 6 connectivity and useful connectors

The projector has built-in Wi-Fi 6, which guarantees smooth streaming media without buffering or stuttering. An **HDMI port** and **dual USB input** allow you to connect multiple devices simultaneously, opening up new possibilities for both work and entertainment.

Exceptional picture quality

It offers spectacular Full HD 1080p picture quality on a screen of up to 150 inches for a cinema-like experience in the comfort of your home. Its long lamp life, versatile WiFi6 connectivity options and intuitive operation make it ideal for film and sports enthusiasts, as well as professionals in need of a robust presentation device.

Ease of use and customization

Although the Extralink Vision Lite projector is equipped with a number of advanced options, its use is intuitive and requires no complicated procedures. With features such as auto keystone correction, zoom, screen aspect ratio adjustment and autofocus, you can easily adjust the image according to your preferences.

Design and aesthetics

The projector was designed with attention to detail to fit perfectly into any interior. The neutral black color scheme fits harmoniously into both modern and classic space arrangements.

~1000 H

Long-lasting performance

The projector lamp is designed to last for thousands of hours without compromising performance, giving years of trouble-free use.
