Price: **109.78 zł** gross / 89.25 zł net

Manufacturer: TP-LINK

Referention number: DNXXGILSMRMNGN

Product features

Storage relative humidity (H-H)	5 - 90%
Height	38.8 mm
Antenna type	Internal
LED indicators	Yes
Width	110 mm
Depth	65.8 mm
Security algorithms	WEP
Storage temperature (T-T)	-40 - 70 °C
Compliance certificates	CE
Browser supported	Internet Explorer 11, Firefox 12.0, Chrome 20.0, Safari 4.0
Power consumption (max)	7 W
Mac compatibility	Yes
Package weight	190 g
Humidity measurement range	10 - 90%
Data transfer rate	433 Mb/s
Harmonized System (HS) code	85176990
Quick start guide	Yes
Networking standards	IEEE 802.11b
Wi-Fi data rate (max)	433 Mbit/s
Operating temperature (T-T)	0 - 40 °C
Package depth	101.5 mm
Package height	89 mm

Package width	156.5 mm
Package type	Box
Reset button	Yes
WPS push button	Yes
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Wi-Fi standards	802.11a
Wi-Fi	Yes
AC input frequency	50 Hz
AC input voltage	100 V
Linux operating systems supported	Yes
Mac operating systems supported	Yes
Windows operating systems supported	Yes
Antennas quantity	3
Product colour	White
Type	Network repeater

Full product description

Extender TP-LINK RE190

It allows you to increase Wi-Fi coverage in hard-to-reach areas. Simply place the **RE190** between your wireless router and wireless devices, extending your Wi-Fi coverage and eliminating dead zones. Enjoy a seamless wireless network throughout your home or office. Dual-band Wi-Fi with speeds **up to 750 Mbps** not only allows you to **extend your range up to 2,000 square feet (185 m2)**, but also **lets you take advantage of fast Internet speeds** - ideal for streaming HD movies, online gaming and other bandwidth-intensive tasks.

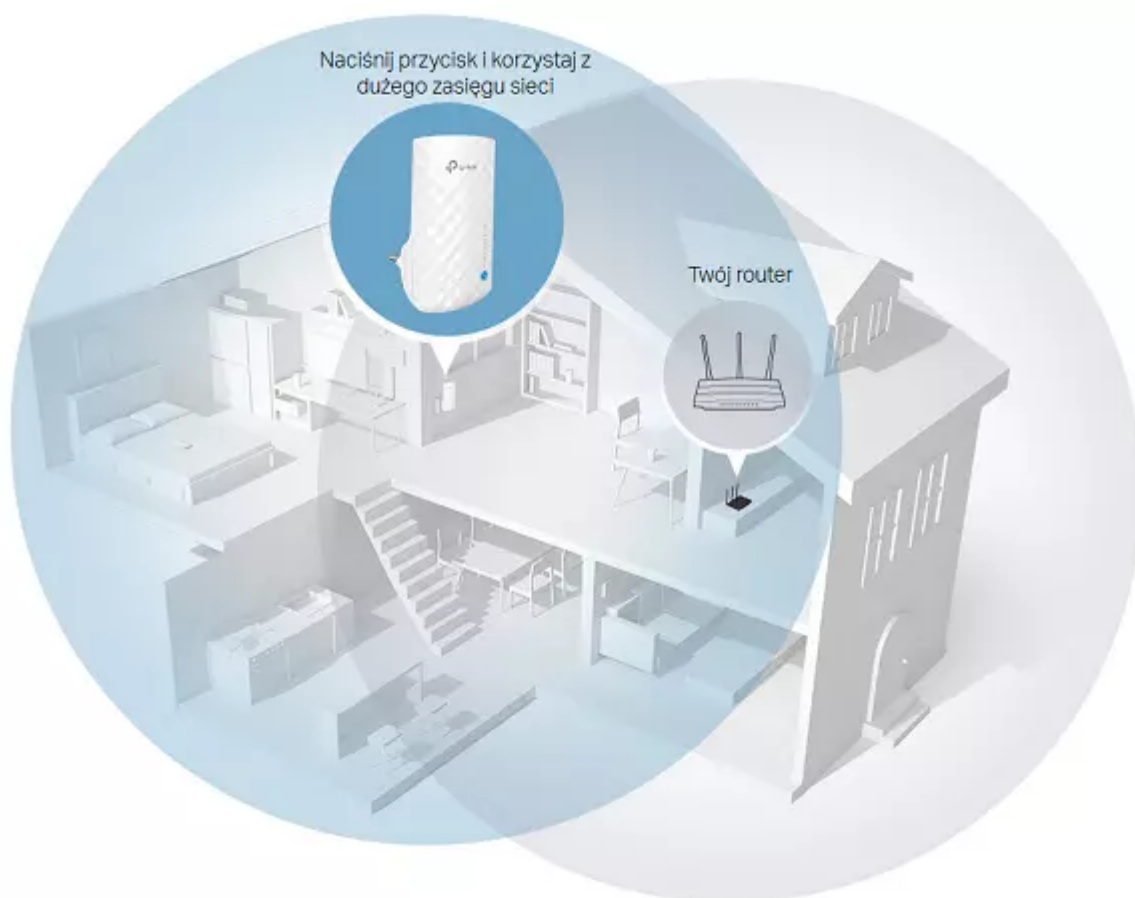

Compatible connections

The **RE190** 's**Wireless AC technology** provides stronger Wi-Fi connections throughout the home. It works with any standard router or access point, so you can conveniently share dual-band Wi-Fi with multiple devices.

One-button connection

Simply press **the WPS button on your router and the RE button on the RE190 within 2 minutes** to easily connect to your network. Once connected to your existing router, you can simply move the RE190 to any location to get the best signal strength.

Intelligent signal indicator

Smart LEDs indicate the signal strength received from the existing router. They help you find the best location for the RE190.
