Price: **291.09 zł** gross / 236.66 zł net

Manufacturer: TP-LINK

Referention number: DNXXGGHJLLRMMII

Product features

Storage relative humidity (H-H)	5 - 90%
Height	66.5 mm
Antenna type	External
LED indicators	Yes
Width	163 mm
Depth	76.4 mm
Security algorithms	128-bit WEP
Storage temperature (T-T)	-40 - 70 °C
Compliance certificates	CE
Power consumption (max)	10 W
Mac compatibility	Yes
Package weight	350 g
Humidity measurement range	10 - 90%
Data transfer rate	1300 Mb/s
Harmonized System (HS) code	85176990
Quick start guide	Yes
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	1
Wi-Fi data rate (max)	1300 Mbit/s
Operating temperature (T-T)	0 - 30 °C
Package depth	125 mm
Package height	86 mm

Package width	202 mm
Cabling technology	10/100/1000Base-T(X)
Package type	Box
Reset button	Yes
WPS push button	Yes
On/off switch	Yes
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Wi-Fi standards	802.11a
Wi-Fi	Yes
AC input frequency	50 Hz
AC input voltage	100 V
Linux operating systems supported	Yes
Mac operating systems supported	Yes
Windows operating systems supported	Yes
Antennas quantity	3
Product colour	White
Type	Network transmitter & receiver

Full product description

AC1900 Universal Wireless Network Amplifier

TP-Link RE500, a signal amplifier using **802.11ac (Wi-Fi 5)** standard, provides **speeds up to 600 MB/s in 2.4GHz band and 1300 MB/s in 5GHz band**. RE550 supports **3x3 MU-MIMO** technology, so it can send packets to multiple devices simultaneously, which makes the device capable of performing many demanding tasks simultaneously.

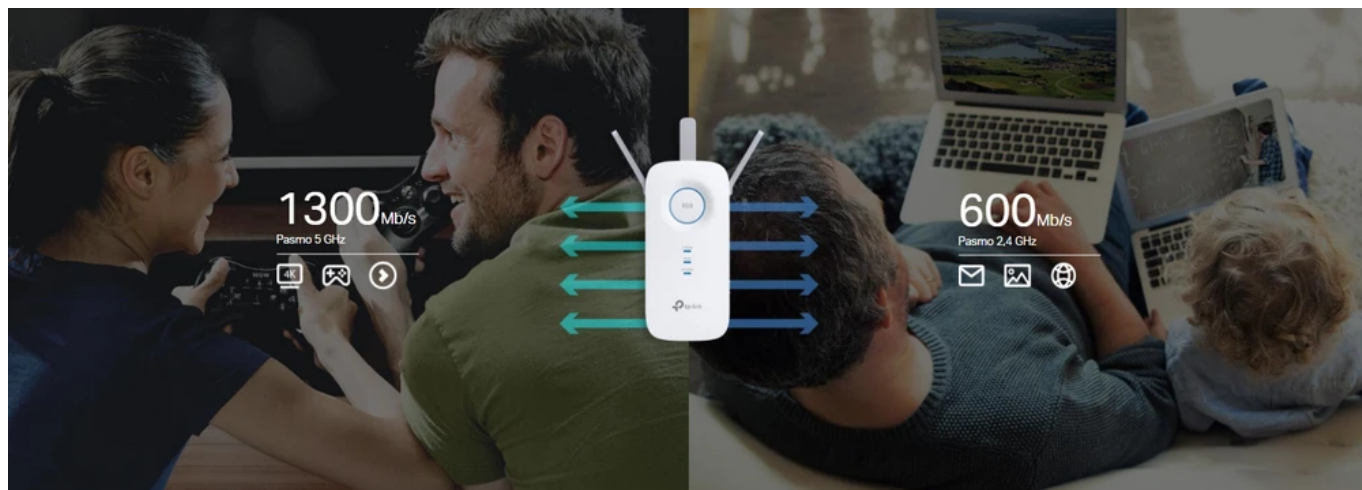

Stable Wi-Fi on the move

TP-Link's Mesh technology makes it easy to create a one-name Wi-Fi network with seamless coverage throughout your home - simply connect the RE550 to a **OneMesh™** router. So you can freely move around your home without worrying about losing your Wi-Fi connection.

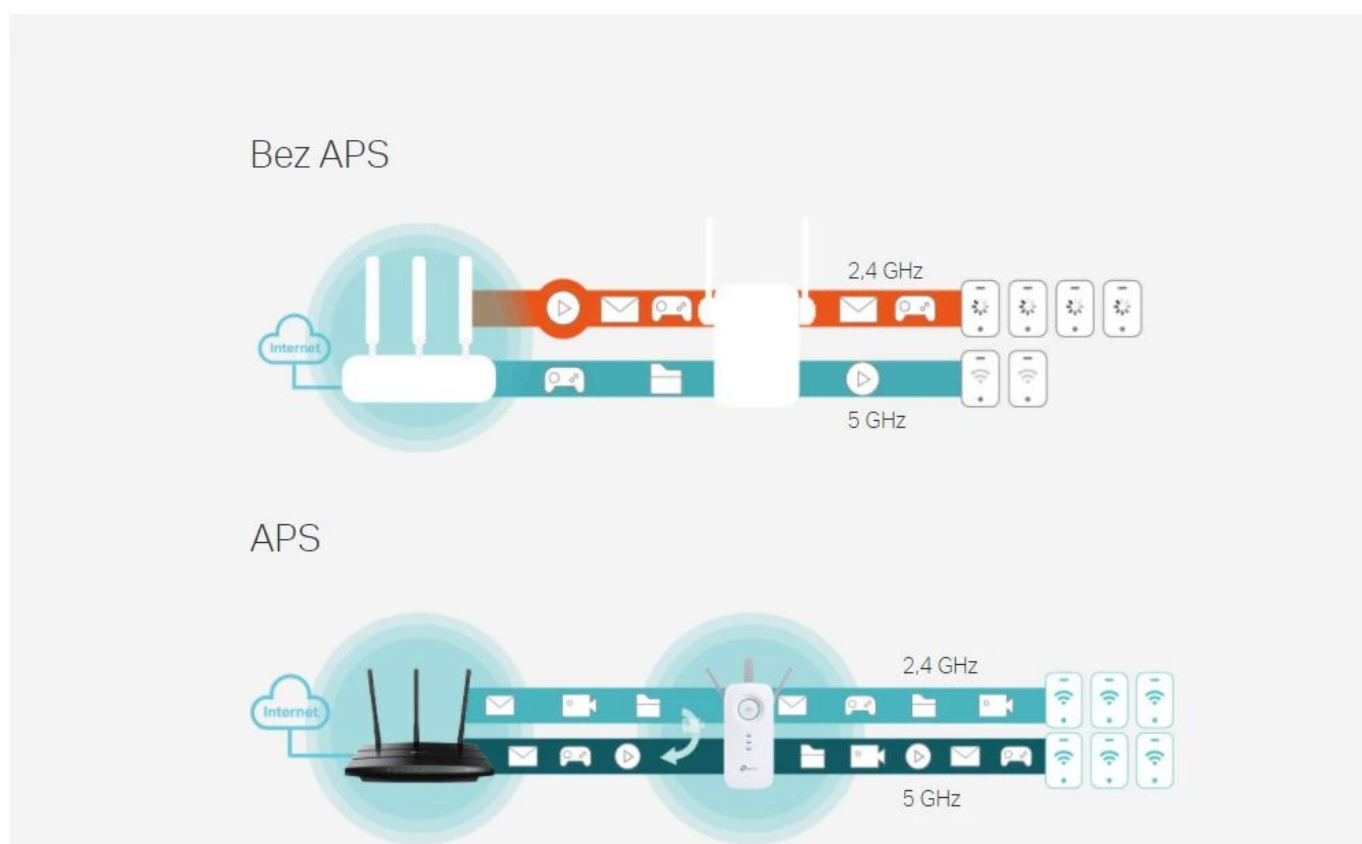

Dual-band Wi-Fi up to 1900 Mb/s

The RE550's dual Wi-Fi bands allow you to connect more devices at the same time. Speeds of up to 600MB/s in the **2.4GHz** band are ideal for email control and web browsing, while 1300MB/s in the **5GHz** band is ideal for online gaming and HD streaming.

Adaptive path selection for maximum speed

Adaptive Path Selection (APS) ensures the fastest connection to your router, guaranteeing optimal speed. This ensures that your connection will always be fast and stable - even with many connected clients and tasks.

Access point mode

The RE550 is more than just a Wi-Fi signal booster. By plugging an Ethernet cable into a port on the RE550, you can easily turn your wired Internet connection into a dual-band **3x3 MIMO Wi-Fi**.

Tryb punktu dostępowego

Always at hand

Control your WI-FI network and TP-Link devices from your smartphone with the **Tether** mobile application
