Price: **125.36 zł** gross / 101.92 zł net

Manufacturer: TP-LINK

Referention number: DNXGFQPKMRMNHK

Product features

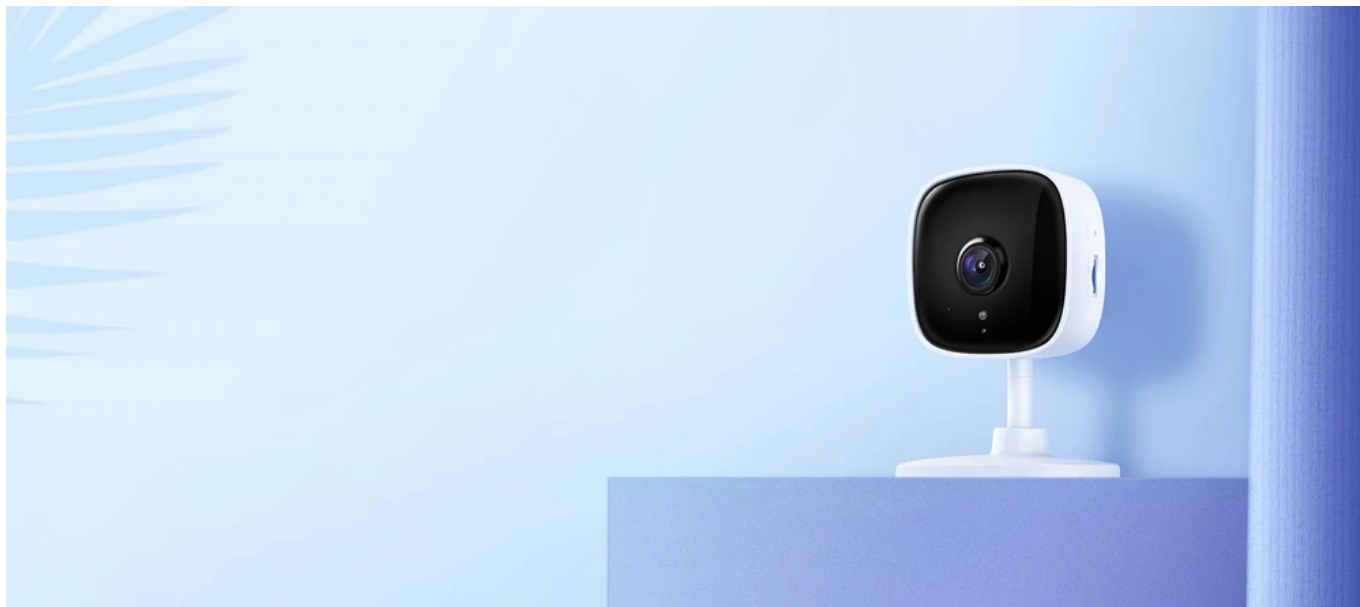

Regulatory Approvals	RCC, CE
Storage relative humidity (H-H)	5 - 90%
Height	98.9 mm
LED indicators	System
Width	67.6 mm
Depth	54.6 mm
Connectivity technology	Wireless
Maximum resolution	1920 pixels
Security algorithms	128-bit AES
Field of view (FOV) angle	105 °
Operating frequency	2400 MHz
Storage temperature (T-T)	-40 - 70 °C
Compliance certificates	RoHS
Audio system	2-way
Frame rate	15 frames per second
Infra-red wavelength	850
Privacy protection	Yes
Night mode	Yes
Package weight	240 g
Humidity measurement range	10 - 90%
Networking standards	IEEE 802.11b
DC output voltage	9

DC output current	0.6 A
Video compression formats	H.264
Number of cameras	1
Number of lenses	1
DC-in jack	Yes
Wi-Fi data rate (max)	150 Mbit/s
Video motion detection	Yes
Operating temperature (T-T)	0 - 40 °C
LED type	IR
Package depth	175 mm
Package height	64 mm
Package width	145 mm
Maximum aperture number	2
Supported network protocols	TCP/IP, DHCP, ARP, ICMP ,DNS, NTP, HTTP, HTTPS, UDP, ONVIF, RTSP
Privacy masking	Yes
Reset button	Yes
Screws included	Yes
Card reader integrated	Yes
Built-in microphone	Yes
Video formats supported	H.264
Maximum memory card size	128 GB
Compatible memory cards	MicroSD (TransFlash)
Day/night mode	Yes
Fixed focal length	3.3 mm
Wi-Fi standards	802.11b
Wi-Fi	Yes
Ethernet LAN	No
AC input frequency	50 Hz
AC input voltage	100 V
Built-in speaker(s)	Yes
Number of sensors	1
Supported video modes	1080p
Power source type	AC
Night vision distance	9 m
Product colour	White
Type	IP security camera
Designation	Indoor

Full product description

TP-Link TAPO C100

Tapo C100 is a compact and powerful IP camera that records clear and sharp 1080p video at 15 frames per second. With built-in IR lighting, the camera can be used both day and night at a distance of up to 9 meters. The device has two-way voice communication and with the Tapo app, it is possible to monitor what is going on at home 24/7 from anywhere using a smartphone. Moreover, the camera supports voice assistants such as, Amazon Alexa and Google Assistant. The camera comes with a microSD card slot for up to 128 GB of storage, equivalent to 16 days of continuous recording.

No hub required

Tapo C100 works with any Wi-Fi router without the need for a separate hub.

Motion detection and activity zone

You will be notified every time the camera detects motion. Notifications will be sent to your phone when motion is detected. In addition, you can personally manage your privacy by setting the motion area to only capture what is happening in the selected area.

Night mode

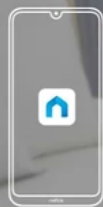

No longer do you have to stress about waking up your child by peeking into their room to make sure everything is okay. With Tapo C100, you can do it silently while watching the room on your phone thanks to the night mode that allows you to capture images up to 9 meters away. You gain peace of mind and your child gains uninterrupted sleep.

Two-way voice communication

The Tapo C100 camera is equipped with two-way audio (microphone and speaker), so you can use the camera to talk to someone at home, or to admonish a disobedient pet.

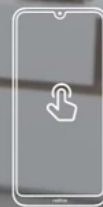

Łatwa konfiguracja z aplikacją Tapo

①
Pobierz aplikację Tapo.

②
Uruchom kamerę i ją podłącz.

③
Wykonaj kroki pokazane w aplikacji.
