Full product description

Big support for small home appliances - Tapo P100

Instantly turn connected devices on and off wherever you are all with the **Tapo** app. The device is designed to make your life easier and help eliminate potential security risks.

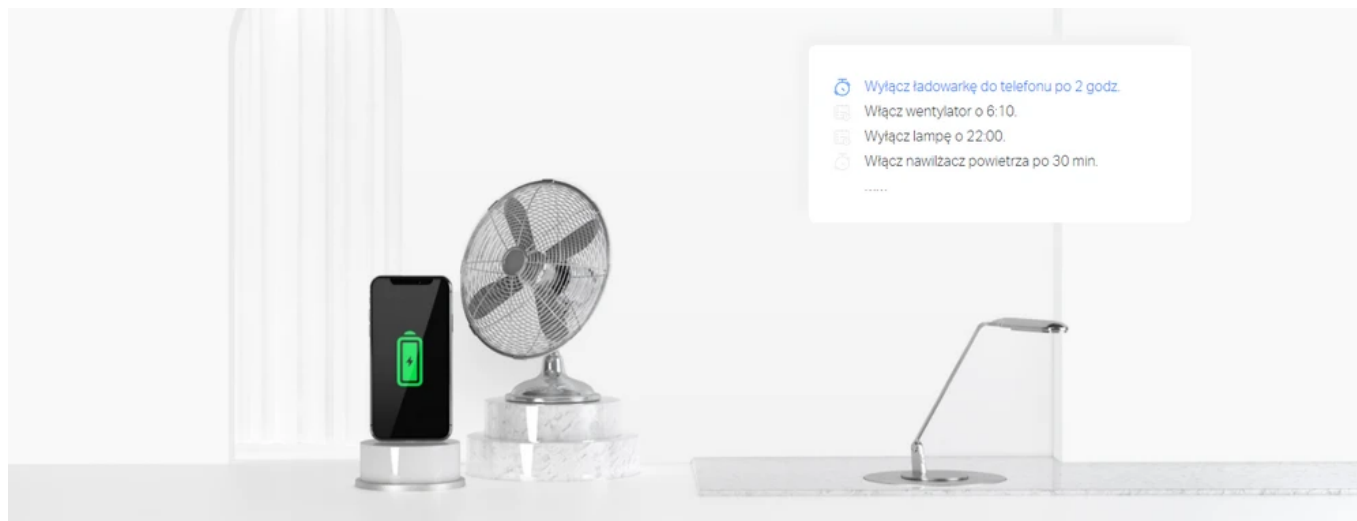

Special features:

- Remote control.
- Schedule.
- Timer.
- Voice control.
- Out-of-home mode.
- Compact design.
- Easy setup.

Live smarter with time programming

Schedule and timer functions allow you to create a weekly schedule and plans. All connected electronics will automatically operate according to the set time, making **your life even smarter, more convenient and energy efficient**.

A robber-repellent for your home

Tapo P100 is equipped with an **away-from-home mode**, a function that intelligently simulates being at home by switching a connected device on and off (e.g. lamps). Even when you are not at home, you will give the impression of being at home and protect yourself from potential robbers.

Share access with the rest of the household

Don't limit yourself to only a single person having control, family members can directly share management privileges.

Enjoy easy, user-friendly setup and use

Unique **Bluetooth Onboarding** technology simplifies setup steps while providing a faster connection and eliminates the hassle of error matching.
