Price: **22.36 zł** gross / 18.18 zł net

Manufacturer: TP-LINK

Referention number: DNXXGFOHLKRMJM

Product features

Storage relative humidity (H-H)	5 - 90%
Antenna type	Omni-directional antenna
Storage temperature (T-T)	-40 - 80 °C
Humidity measurement range	10 - 90%
Antenna gain level (max)	9 gain
Impedance	50 Ω
Operating temperature (T-T)	-10 - 60 °C
Product colour	Black
Horizontal beam width	360 °
Vertical beam width	15 °
Polarization	Linear polarization
Gain	9 gain

Full product description

TP-Link omnidirectional antenna for indoor applications

TL-ANT2409CL is a desktop antenna for indoor applications. Its energy gain is 9 dBi. The omnidirectional TP-Link antenna uses 2.4-2.5 GHz band and guarantees extension of wireless transmission range and better performance. The antenna is equipped with RP-SMA female connector, so it can cooperate with most wireless devices. To increase the quality of transmission, it is enough to replace the standard antenna of the router or access point with omnidirectional antenna. Because the omnidirectional antenna sends and receives signals in any direction, there is no need to set it.

Omnidirectional antenna TP-Link TL-ANT2409CL

- Easy installation, no additional software required
- The 9 dBi omnidirectional antenna gain allows the wireless signal to cover a larger area
- RP-SMA female connector enables the antenna to work with devices with RP-SMA male connector
