Price: **815.97 zł** gross / 663.39 zł net

Manufacturer: TP-LINK

Referention number: DNXEDLINERMLMP

Product features

Storage relative humidity (H-H)	5 - 90%
Ports quantity	14
Height	86 mm
Width	482 mm
Depth	358 mm
Power management	100-240 V
Storage temperature (T-T)	-40 to 70 °C
Humidity measurement range	10 - 90%
Operating temperature (T-T)	0 - 40 °C
Rack capacity	2U
Size (imperial)	19 "
AC input frequency	50 Hz
Product dimensions (WxDxH)	482 mm
Product weight	8000 g

Full product description

14-slot rack cabinet housing - space-saving and easy to install

The **14-Slot TL-MC1400** has been designed to accommodate 14 TP-LINK media converters for central power supply, saving space and power cables. Continuous operation is very important for fiber optic communication, so the enclosure is equipped with an optional redundant power supply. It also has the **Hot Swap** function, which allows to install and remove the converter or power supply without having to switch off the housing. To ensure more stable and long-lasting operation, the device has two built-in fans. The chassis, together with **MC Gigabit / Fast Ethernet** TL-MC1400 series media converters, is an ideal solution for media conversion networks.

The TL-MC1400 features:

- Simple and quick replacement of converters and power supply
- Additional optional power supply (TL-MCRP100) for continuous operation
- Possibility to mount 14 media converters
- Two fans installed for better airflow
