Full product description

MR6400 Wireless Router - get the most out of your network and enjoy the 4G LTE internet

TP-Link TL-MR6400 is an LTE wireless router. The **N** standard makes the device able to reach download speeds up to **150 Mb/s**, so you can take full advantage of your **4G LTE** connection. Now you can enjoy downloading files, watching movies and video chatting smoothly, without any obstacles.

High-speed wireless router

The MR6400 wireless router allows you to transfer data at speeds up to **300 Mb/s**, so the device will meet the needs of even more demanding users who use the network to **stream HD video**, **online games**, or **download large files**. Thanks to the use of external antennas, the MR6400 router allows to obtain a stable network even over longer distances.

Share 4G LTE network without configuration

With the integrated **4G LTE** modem and SIM slot, just insert the SIM card and turn on the device, and the router will automatically connect to the operator's network and provide this connection to your home wireless network. The device is fully compatible with **FDD-LTE** and **TDD-LTE** connections offered by most service providers worldwide.

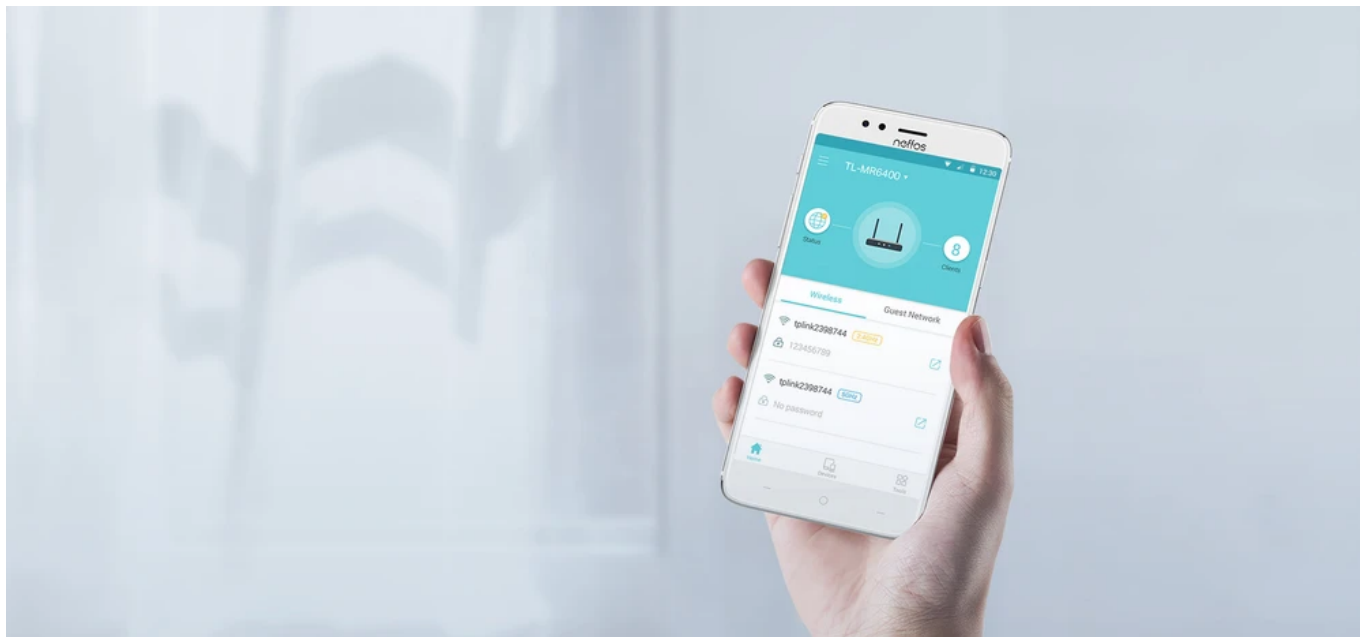

Wi-Fi connection for up to 32 devices simultaneously

The TL-MR6400 provides a wireless connection for up to 32 devices such as tablets, smartphones and laptops. The LAN ports can be used to connect desktop devices such as computers.

Intuitive router configuration and management

Configure your router in a few minutes using the intuitive browser interface or using the **Tether** application. The **Tether** application allows you to easily manage your network using mobile devices with [iOS](#) or [Android](#).

TL-MR6400 Features:

- Integrated high power antennas for stable connection and long range
- No configuration required, just insert the SIM card
- Wireless network speed up to 300 Mbps
- LAN/WAN ports for configuring additional Internet connection
- 4G LTE connection can be made available in a wireless network at speeds up to 150 Mbps
