Price: **109.00 zł** gross / 88.62 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGKOLJRMMLN

### Full product description

#### Smart door and window sensor with ZigBee support

The Extralink Smart Life Door and Window Sensor is a **smart door and window sensor** that detects the opening and closing of doors or windows. The sensor connects to the [Extralink multifunction gateway](#) using the ZigBee protocol when added in the **Tuya app** and allows you to create smart home scenes. The sensor has low power consumption and long battery life. The sensor also has an **anti-manipulation function** and a low voltage reminder.

**Secure your home, flat, office, garage or hall,  
it is possible to connect multiple detectors to one  
application and give them their own name,  
e.g. Entrance Door Detector.**

### **Key features of Extralink door and window sensor**

Detects opening and closing of doors or windows  
Connects to Extralink multifunction gateway using ZigBee protocol  
Has low power consumption and long battery life  
Has anti-manipulation and low voltage reminder function  
Is easy to install and operate using the Tuya app

**WHEN YOU ARE BUSY, YOU CAN USE THE SECURITY ALARMS ON THE DOORS TO PREVENT SMALL CHILDREN FROM LEAVING. THEY REMIND YOU TO OPEN THE DOOR, WINDOW OR FRIDGE.**

### **Detection of opening and closing of doors and windows**

The Extralink door and window opening sensor detects the change in distance between the main and auxiliary modules, which are placed on doors or windows. When the door or window is opened or closed, the sensor sends a signal to the [Extralink smart home gateway](#), which can activate other smart devices. For example:

You can set the house bell to automatically activate when the sensor detects a door opening Set the sound and light alarm to automatically activate when the sensor detects the opening of a window The camera will automatically turn on and start recording when the sensor detects an opening

# KEEP YOUR CHILD SAFE

The door and window opening sensor is ideal for stair gates for children

## Connectivity with Extralink multifunction gateway via ZigBee

Extralink Door and Window Sensor connects to multi-function gateway [Extralink Smart Life Multi-function Gateway](#) using the ZigBee protocol via **the Tuya app**, which is safe, reliable and compatible with other smart devices. ZigBee is a low-power wireless communication protocol that enables the creation of mesh networks. A mesh network is a network in which each device can communicate with other devices directly or through intermediate nodes. This makes the mesh network immune to interference and ensures full signal coverage everywhere.

# Door alarms can be used in many ways and do not have to be limited to securing doors and windows against burglary

1.

Protect windows and doors in your home (e.g. patio doors), garage, safe, shop window from break-ins.

2.

This compact alarm system is also ideal for first aid boxes, cleaning cupboards, as an access barrier for children or for securing hazardous materials

## Low power consumption and long battery life

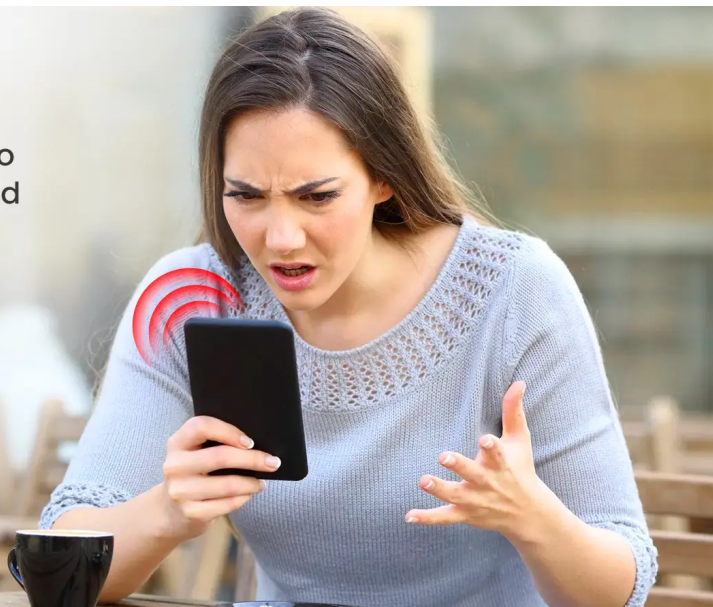

The **Extralink door and window sensor** has low power consumption and long battery life. The sensor is **powered by two CR1632 batteries** with a capacity of 140 mAh each. The sensor has a sleep mode that reduces power consumption to a minimum. **The sensor can last up to 2 years** with normal use (30 times a day). The sensor also has a low-voltage reminder function that alerts the user when the batteries need to be replaced.

The sensor, by sending a notification to your phone, will inform you of unwanted intrusion at the door or window

You can react quickly – inform a neighbour or call the police

**STAY IN CONTROL OF YOUR HOME,  
EVEN WHEN YOU ARE NOT THERE**

### **Anti-manipulation function and easy installation**

**The Extralink sensor** has an anti-manipulation function that prevents unauthorized removal or damage to the sensor. When someone tries to remove or tear the sensor, the sensor will send an alarm signal to the Extralink multifunction gateway, which can trigger other smart devices.

### **Extralink Smart Life Ecosystem**

Extralink Smart Life is a **comprehensive smart home ecosystem** that integrates lighting, electronics, cameras, video intercoms, sensors and pet feeders. The system allows easy automation and management of various devices through a single control panel, providing convenience and security.
