Full product description

TP-LINK TL-SG1024

The TL-SG1024 Gigabit Switch provides a powerful, low-cost, easy-to-use, seamless and standard upgrade from your old network to 1000Mbps. All **24 ports support MDI/MDIX** car. No need to worry about cable type, just plug and play.

Intelligent and economical device

In addition, thanks to innovative, energy-efficient technology, the **TL-SG1024** can save up to 25% of its energy consumption and 80% of packaging materials can be recycled, making it an environmentally friendly solution for your business network.

Features:

1. Innovative, energy-efficient technology saves up to 25% energy.
2. 100% Data filtering speed eliminates all error packets
3. Supports IEEE 802.3x flow control for Full Duplex mode and backpressure for Half Duplex mode
4. Non-blocking forward switching architecture and packet filtering at full link speed for maximum throughput
5. 48Gbps Switching capacity
6. Auto-MDI/MDIX eliminates the need for crossover cables
7. Supports automatic learning and automatic aging of the MAC address
8. N-Way Auto-Negotiation port support, Store and Forward.
9. Compact design for desktop computers, rack-mountable
10. Plug and Play design simplifies installation
