Manufacturer: TP-LINK

Referention number: DNXGGHJNERMLNL

Full product description

Software Defined Networking (SDN) with intelligent access

The **Omada SDN** platform integrates access points, switches and gateways to provide **100% centralized control** over the cloud. Omada provides an easily scalable network managed from **a single interface**. Seamless, drop-free and drop-in connections are provided, which are ideal for use in hospitality, education, retail, office and other environments.

More features with the managed switch

TP-Link TL-SG2210MP JetStream 8-Port Gigabit managed switch with PoE ports and 2 SFP slots

- **150W PoE power:** 8 802.3at/af compliant PoE ports with a total power supply of up to 150Gigabit
- **Ports:** 8 Gigabit PoE Ports and 2 Gigabit SFP Slots provide high connection speeds
- **Omada SDN:** The platform provides access to unattended ZTP configuration, central cloud management and intelligent monitoring.
- **Centralized management:** Management is extremely convenient with cloud-based access and the easy-to-use Omada app.
- **Strong security strategies:** IP-MAC-Port Binding, ACLs, Port Security, DoS Defend, Storm control, DHCP Snooping, 802.1X, Radius Authentication and more.
- **Voice and Video application optimization:** L2/L3/L4 QoS and IGMP snooping.
