Full product description

Easy Smart TP-LINK switch TL-SL2218

TP-LINK TL-SG2218 is a managed Gigabit switch with **16 10/100 Mbps RJ45 ports**, **2 Gigabit RJ45 ports** and **2 Gigabit SFP ports**. The device provides high performance, QoS functionality, advanced security policies and numerous second layer management features. This Gigabit switch TL-SG2424 is a multifunctional solution for medium and small businesses.

Advanced management and safety functions

The **TL-SL2218 managed switch** has a range of second layer management features to extend application capabilities including **802.1Q VLAN support, port isolation, port mirroring, STP/RSTP/MSTP, port aggregation and 802.3x flow control**. In addition, maintenance features such as **loop back connection detection, cable diagnostics and IGMP snooping** are available. IGMP snooping allows intelligent multicast streaming only to specific subscribers, while **IGMP throttling** and **IGMP filtering** restrict access to multicast for unwanted users.
