Information:

Extralink Smart Life Cable + Charger is a practical set for charging devices with a USB-C port, ideal for home, office and travel. It includes a compact 12 W mains charger and a 200 cm USB-A to USB-C cable, providing convenience and greater freedom when using your phone or tablet while charging. The durable braided sheath increases the cable's longevity, and the black colour gives it a universal look. The set also enables data transfer and synchronisation when connected to a computer.

Full product description

Everyday charging

Extralink Smart Life Cable + Charger is a set designed for charging mobile devices equipped with a USB-C port. The combination of a cable and mains charger allows convenient power top-ups for a smartphone at home, in the office or anywhere else with access to a socket.

200 cm cable length

The **200 cm USB Type-A to USB Type-C cable** offers greater freedom when using the device being charged. The long cable makes it easier to connect a smartphone to the charger when the socket is farther away from the desk, table or relaxation area.

Devices with a USB-C port

The set can be used to charge compatible **smartphones, tablets, e-book readers** and other devices equipped with a USB-C port. The cable length allows you to use the equipment comfortably even while it is charging.

12 W charger

The set includes a **12 W mains charger** and a USB Type-A to USB Type-C cable. The compact design of the charger makes it easy to store and carry, so it can be used both at home and while travelling.

Durable cable braid

The cable is finished with a **protective braid**, which supports its durability during everyday coiling, uncoiling and carrying. The black colour scheme means the set suits both a home workstation and office space.

Charging and data transfer

When connected to a compatible USB-A port on a computer, the cable can be used for **charging and data transfer**. This makes it possible to move files between a smartphone and a computer and synchronise the content of supported devices.
