Price: **44.76 zł** gross / 36.39 zł net

Manufacturer: TP-LINK

Referention number: DNXEHOQUELKO

Product features

Height	11 mm
Width	93.5 mm
Depth	26 mm
Maximum data transfer rate	150 Mb/s
Package weight	180 g
Antenna gain level (max)	4 gain
Package depth	150 mm
Package height	39 mm
Package width	200 mm

Full product description

Wireless USB network card

The **TL-WN722N** Wireless USB Adapter allows you to connect your laptop or desktop computer to a wireless network, giving you access to a fast and seamless connection. The device operates in the **N** standard and provides a speed of up to **150 Mb/s**, thus ensuring seamless HD video streaming or online gaming.

Fast and stable wireless transmission

TL-WN722N, acting in accordance with **IEEE 802.11n** standard, reduces signal losses due to long distances or obstacles such as steel or concrete building walls. With a data transfer rate of **54 Mb/s** in the G standard we guarantee high performance, which will ensure that sharing files, viewing multimedia, surfing or making phone calls over the Internet is smooth and convenient.

External antenna with 4 dBi gain

The wireless network adapter uses an external, attachable mobile antenna with high gain, which ensures stable connection to the Internet even in places distant from the access point. However, if the range of the antenna is insufficient, we can replace it with another one with higher gain, and in this simple way expand our network.

Security with WPA/WPA2 encryption

The device uses WPA/WPA2 encryption developed by the Wi-Fi Alliance, which effectively protects our network against external attacks.
