Full product description

TL-WN725N - Miniature USB network card

The TL-WN725N is a **USB** network interface card, miniature in size, enabling convenient use of fast wireless connections in the 2.4GHz band. The device allows you to connect your laptop or desktop computer to the wireless network, guaranteeing excellent connection speed. It has advanced security in the form of **WEP, WPA, and WPA-PSK/WPA2-PSK** standards. The WiFi adapter reaches speeds up to 150Mbps - ideal for streaming video and Internet telephony.

Plug it in and forget about it

Thanks to its incredibly small size, you can connect the device to any USB port and leave it there, without worrying about blocking access to neighboring USB ports or dropping the device when moving your laptop. Once connected to a USB port in your computer it can stay there, both at home and on the go. It also allows you to enjoy advanced security. It is very easy to install which is definitely an advantage.

High performance

The speed up to **150Mbps** is ideal for smooth video streaming, voice transmission and online gaming, and advanced **WEP, WPA, WPA-PSK/WPA2-PSK** security standards effectively protect your network from unwanted attacks. In addition, the device uses **SoftAP**, which will provide a smooth and interference-free wireless connection.
