Full product description

Wireless USB network card - TL-WN8233N

The TL-WN8233N is a **pocket-sized USB** network adapter that will provide your laptop or desktop with the highest quality wireless connections. The wireless adapter supports **SoftAP** mode for secure connection, you can enable it with one button. Configuration of **SoftAP** is quick and easy. The device is a great solution to enjoy fast connections to the wireless network.

Wireless connection of up to 300 Mbps in the N standard

With advanced **MIMO** technology and connections reaching **300 Mb/s**, the adapter provides fast, lag-free wireless connections suitable for online gaming or video streaming. When connecting to **N** devices, it achieves high performance, but there is also no problem with devices that support **IEEE 802.11b/g** standards.

Secure WPS connection

Pressing **WPS** guarantees a secure, encrypted WPA2 connection. WPS significantly speeds up the process of first configuration with the wireless router, thanks to this solution we don't have to remember the network access password either.

Easy to operate

Thanks to the clear and intuitive software interface on the CD that comes with the product, setup is quick and easy, even for novice users.
