Product colour	Black
USB 3.2 Gen 1 (3.1 Gen 1) Type-A ports quantity	4
Host interface	USB 3.2 Gen 1 (3.1 Gen 1) Type-A

Full product description

4 x USB 3.0 Hub

Flash drives, mice, keyboards, printers and even smartphone charging cables. These are all devices that you can connect to the **TP-Link UH400** USB Hub. This compact **device has four high-speed USB 3.0 ports**, so it's perfect as an accessory for your laptop or desktop computer, where you're struggling with the lack of classic USB connectors.

Excellent data transfer rate

Because this USB hub uses a fast USB 3.0 interface, **it can achieve up to 5 Gbit/sec data transfer speed**, so it is possible to **transfer files up to ten times faster than using USB 2.0**.

Easy to use

TP-Link UH400 USB hub does not have to be complicated in installation or configuration. Just connect it to a computer with an **integrated cable** and you can start working immediately - the automatic **Plug & Play** system will handle the whole configuration.
