Interior material	Stainless steel
Thermal insulation	Yes
Lid included	Yes
Lid material	Plastic
Leakproof	Yes
Cold keeping time	24 h
Hot keeping time	12 h
Cover	Stainless steel
Product colour	Silver
Suitable for beverage	Coffee
Capacity	500 ml
Diameter	65 mm
Product weight	300 g

Full product description

Temperature control display

The main advantage of the thermos with LED display is the **ability to monitor the temperature of the stored beverage**. Thanks to the built-in thermal sensor and display, you can keep track of whether the beverage is at the right temperature.

TEMPERATURE CONTROL DISPLAY

You can check the temperature at a single touch on the easy-to-read LED display

Built-in battery automatically switches off the display when not in use

Non-replaceable battery with a lifespan of more than one year

Product highlights:

1. Double walls
2. Compact size
3. Stainless steel that is safe for food contact
4. LED display that shows the temperature of your drink
5. Strainer that allows you to enjoy the flavor of your favorite beverage without unnecessary grounds
6. Keeps hot for up to 12 hours
7. Keeps cold for up to 24 hours
8. Built-in battery

THE PERFECT GIFT IDEA

It is the perfect gift for people
who appreciate practical things

Mobility

The LED thermos is **lightweight and easy to carry** due to its small size. This makes **it the perfect companion for travel**, nature excursions or the daily commute.

The compact size means it fits easily into a small rucksack or handbag. It also fits into car cup holders and fits perfectly in the hand.

Top quality

The thermos is **made of high quality stainless steel**. It is safe in contact with food and does not affect the taste. The thermos has **double walls**, which guarantees to maintain the temperature of hot drinks for up to 12 hours and cold drinks for up to 24 hours.

What to use the thermal mug for?

9. During cold winter trips, sleigh rides, autumn walks, we will then pour hot tea, coffee or even cocoa into it!
10. On summer camping trips or vacations. We can then store chilled soda, water or freshly squeezed juice in the thermos!
11. For storing drinks at work or school. It is slim and compact - it will fit into a woman's purse!
12. During workouts or visits to the gym, it's a good idea to have a thermal mug with water or isotonic drink with you
13. Parents can use thermal mugs to keep milk or other drinks at the right temperature.

**Indispensable for hot beverage lovers
who appreciate being able to enjoy
hot coffee and tea anywhere**

Thermal mug available in 4 colours
