Full product description

Paediatricians TVIP S-Box v.605

The wide range of TVIP S-Box models allows you to choose a media center that better meets your requirements. TVIP Mediacenters are versatile and we can provide exactly what you need. **The IPTV** decoder, running on a powerful quad-core **Amlogic S905X 1.5 GHz** processor. It has a five-core Mali-450 graphics chip, **1 GB RAM** and 8 GB Flash. It supports **Ultra HD 4K 3840x2160 (HDR)** resolution and H.265(10 bit)/HEVC, VP9, H.264, MPEG4 ASP, MPEG2, MJPEG (2160p 60fps), Xvid codecs. Operating system **Linux/Android 8.0 Oreo**. The decoder is equipped with **HDMI 2.0**, AV, Ethernet, **microSD** card port and 2 USB ports. It supports **WiFi 802.11 (b/g/n/ac) 2.4/5 GHz** and **Bluetooth**.

Amazingly powerful processor

TVIP paediatricians always use modern **SoC** with a powerful multi-core processor that allows you to enjoy all the modern multimedia applications that were not only created today, but will be developed in the next few years. **Amlogic S905** makes **STB** much more powerful and enables **4K** video playback with **HDR** technology.

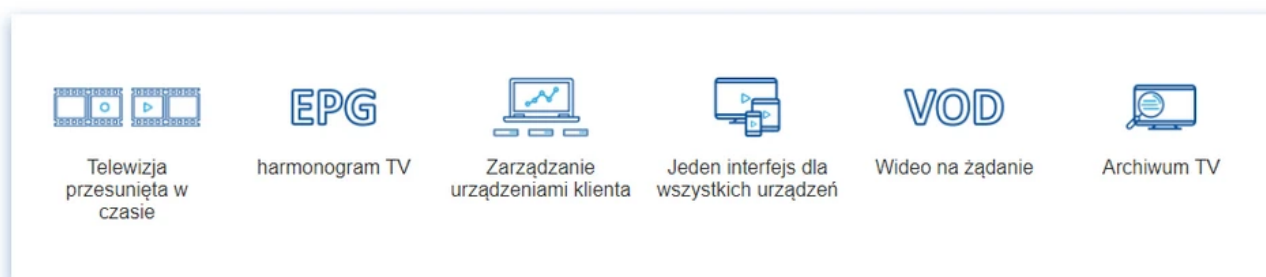

TVIP S-BOX with USB support for multiple devices

All **TVIP S-Box** support **USB-host** connection. You can connect flash drives, hard drives, keyboards and wireless remote controls. Video or music directly from an external hard drive or flash card will be a great addition to your service. TVIP S-BOX supports **AVI, MKV, MP4** and many other media formats. It also supports multi-channel audio and subtitles.

Learning to control the remote control

Configuration is quick and easy. The remote control supports learning to control the TV. The learning configuration does not reset after battery replacement.

Multiple screens

Create channel packages for different devices: tablets, TVs and phones.
