Product weight	420 g

Full product description

Meet the Ubiquiti 1U Rack Mount Brush OCD Panel - a brush grommet that is the perfect accessory for your rack!

This product not only makes it easy to organize cables, but also provides **an aesthetically pleasing and professional finish** while protecting your network devices from dust and damage. If you want to organize your network infrastructure, this panel is for you.

Professional cable organization

The Ubiquiti 1U Rack Mount Brush OCD Panel allows you to effectively manage your cables, keeping them organized and preventing tangling. Thanks to the brush grommet, cables can be easily routed, enhancing the aesthetics and functionality of your rack. It is ideal for professional installations where every detail matters.

Durable and robust construction

Made of high-quality aluminum alloy and carbon steel (SPCC), the panel provides strength and long life. The polypropylene (PP) used for the brushes is resistant to wear, ensuring long-lasting cable protection. The panel's robust construction makes it resistant to mechanical damage, which is crucial in heavily used environments.

Aesthetic finish

The painted surface of the panel gives it an elegant look that blends in perfectly with other elements of the network infrastructure. The aesthetic finish not only improves the appearance of the rack, but also makes the entire installation look more professional. With this product, your rack will not only be functional, but also visually appealing.
