Full product description

Meet the Ubiquiti 1U Rack Mount Vented OCD Panel - a bezel that not only improves the look of your rack, but also provides optimal air circulation!

This front panel is the perfect solution for professional network installations, combining functionality with aesthetics.

The Ubiquiti 1U Rack Mount Vented OCD Panel is designed to provide **excellent air circulation in the rack**. The vented design helps keep your devices at the right temperature, which is crucial for their long-term and reliable operation. With this panel, you can rest assured that your devices will operate in optimal thermal conditions.

Aesthetic appearance

The front panel not only provides functionality, but also improves the appearance of the rack. The panel's painted surface gives it **a sleek look** that blends in perfectly with modern networking equipment. With the Ubiquiti 1U Rack Mount Vented OCD Panel, your installation will look professional and neat.

Durable design

Made of high-quality aluminum alloy and cold-rolled carbon steel (SPCC), the panel is characterized by **exceptional durability and resistance to damage**. The robust construction guarantees the longevity of the product, even in heavily used environments. This is an accessory that will last for many years, maintaining its characteristics.
