Type	Blank panel
Product weight	446 g

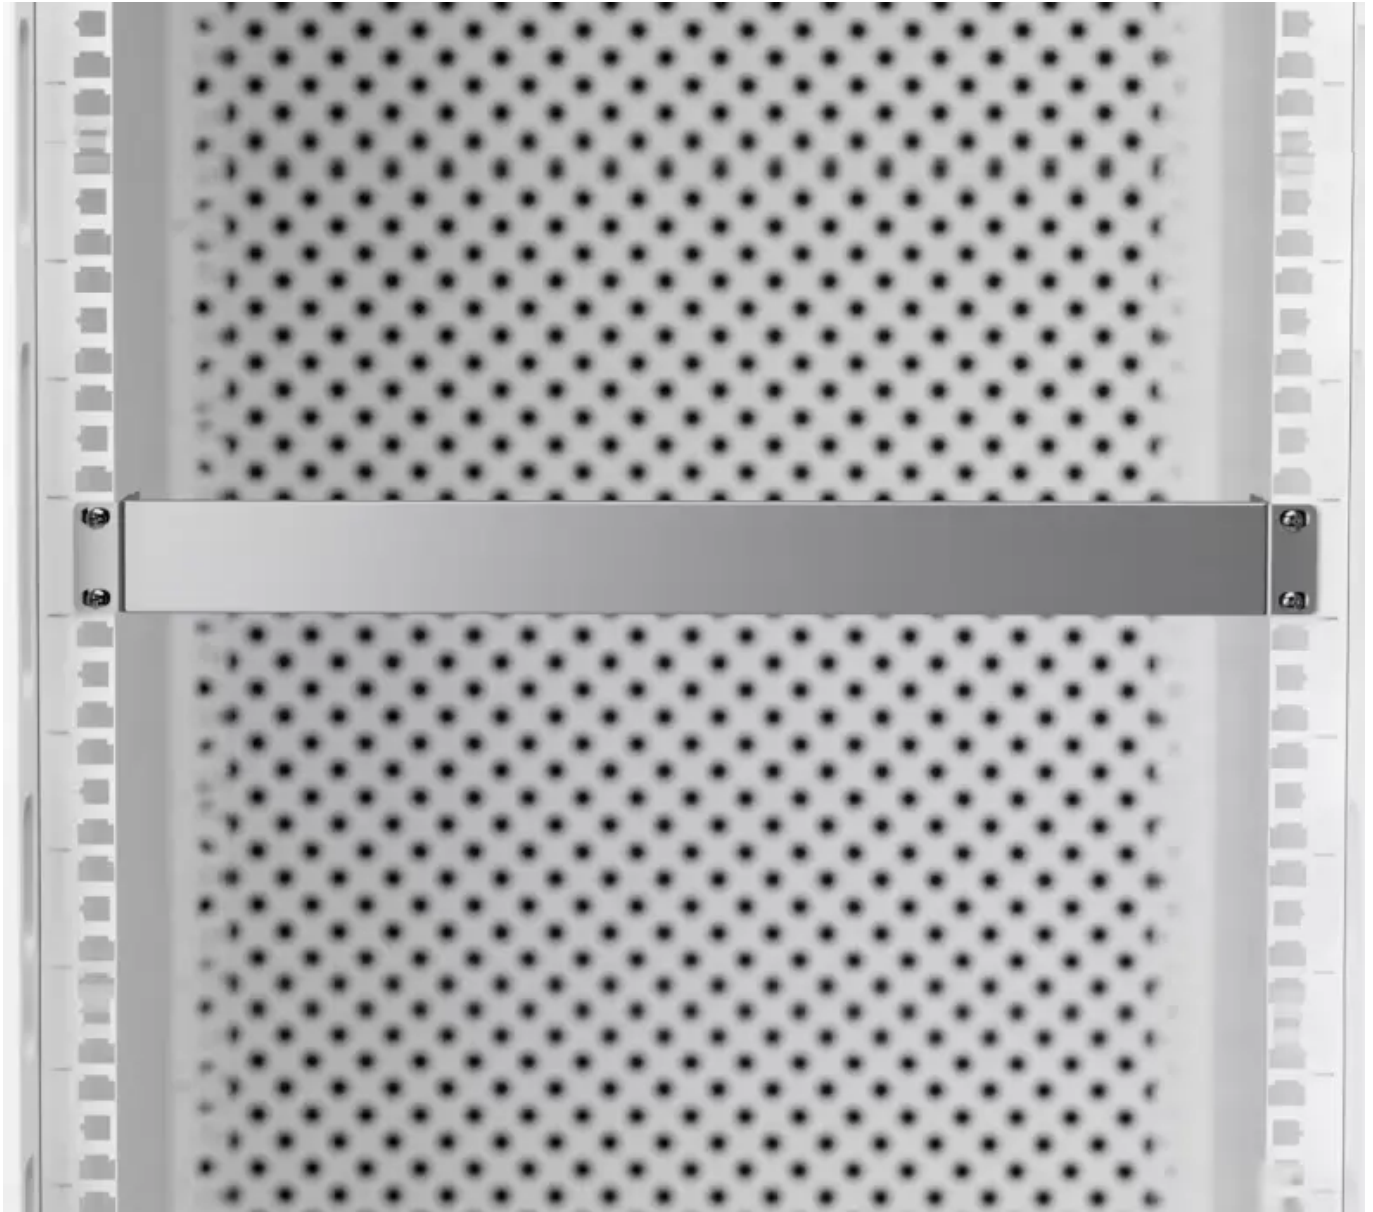

Full product description

Meet Ubiquiti 2U Rack Mount OCD Panel - the perfect solution for professional network installations!

Designed with durability, aesthetics and functionality in mind, this locking panel will fill the empty spaces in your server rack, providing not only order but also extra protection for your equipment.

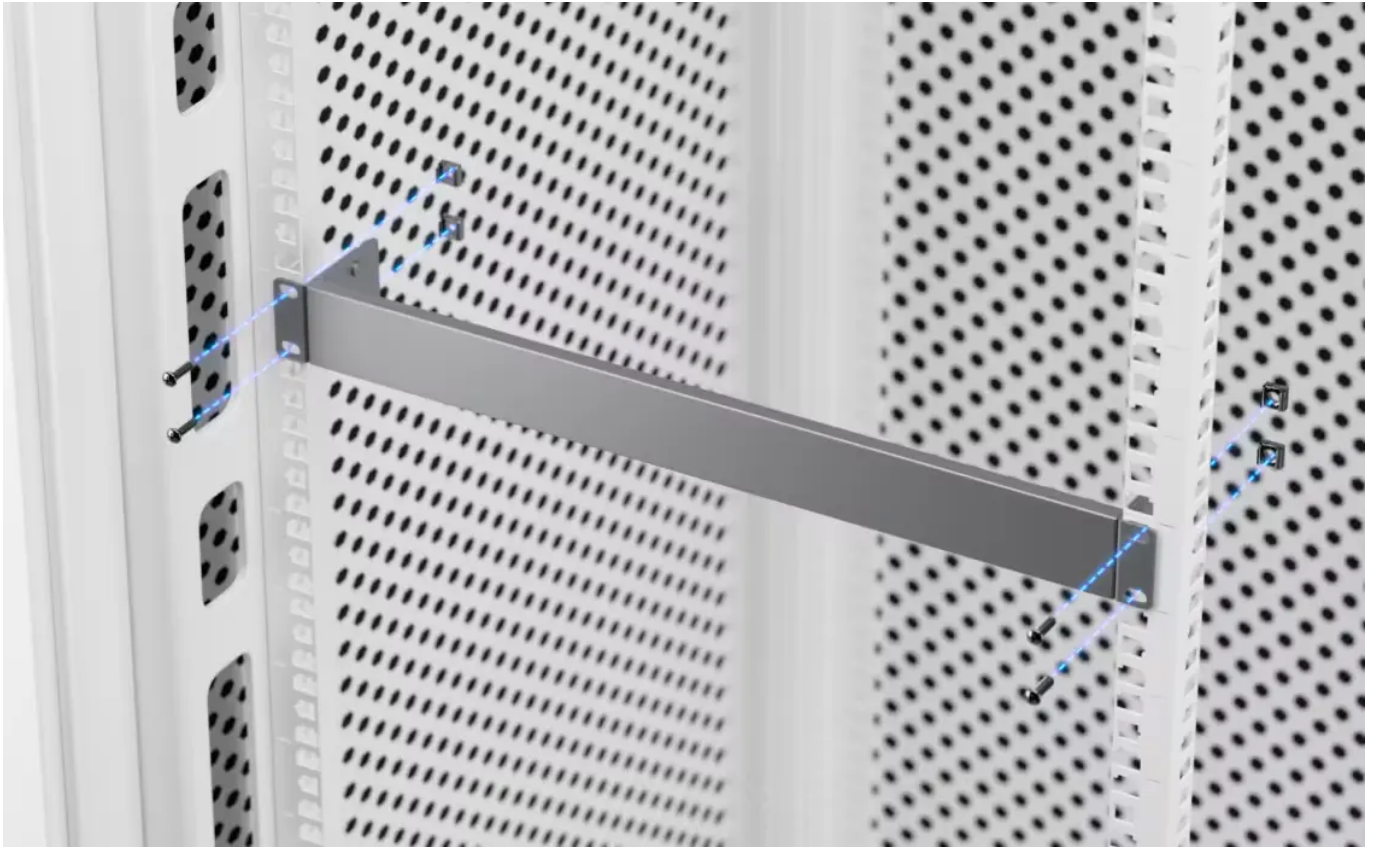

Durable design

The panel is made of cold-rolled carbon steel (SPCC), which provides exceptional durability and resistance to mechanical damage. Thanks to its robust construction, the panel retains its properties for many years, regardless of the operating conditions.

Aesthetic finish

Thanks to professional painting, the panel looks extremely aesthetically pleasing and elegant. Its modern appearance blends perfectly with other elements of network infrastructure, enhancing the overall aesthetics of server rooms.

Equipment protection

The Ubiquiti 2U Rack Mount OCD Panel not only improves the appearance of the rack, but also protects internal components from dust and other debris. Closing off open spaces also helps maintain optimal air circulation, which is crucial for efficient cooling of equipment.
