Product features

Category	OM3
Duplex	Yes
Number of connectors	2
Product colour	Silver

Full product description

High-bandwidth duplexer offering reversible duplexing

Each AF-11FX can be configured to operate at any acceptable frequency by simply changing duplexers - it requires one or two duplexers (sold separately: AF-11FX-DUP-H and AF-11FX-DUP-L models) within **10.7 - 11.7 GHz**. Each duplexer has a low and a high channel, which can be configured by simply inverting the duplex position.
