Price: **12,411.13 zł** gross / 10,090.35 zł net

Manufacturer: UBIQUITI

Referention number: DNXMILPOHTJJ

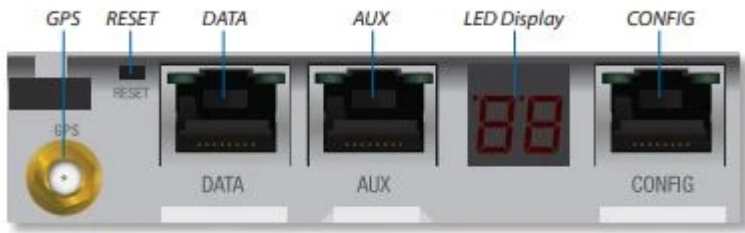

Product features

Height	370 mm
Antenna type	Sector antenna
Modulation	16-QAM
Width	593 mm
Depth	768 mm
Compliance certificates	RoHS
Antenna gain level (max)	40 gain
Operating temperature (T-T)	-40 - 55 °C
Frequency band	24 GHz
Mounting	Wall
Product colour	White
Polarization	Dual polarization
Designation	Outdoor
Product weight	17300 g

Full product description

24 GHz Full Duplex point to point 2 Gbps base station

Equipped with our special INVICTUS™ chip to process over **2 million packets** per second. The AirFiber®24HD base station is ideal for outdoor applications, PtP bridging and links that require maximum performance.

Revolutionary performance

Equipped with the world's best unlicensed bandwidth performance at **15.9 bps/Hz**, airFiber@24 HD supports dense modulation - up to **256QAM**, which is required at high speeds - up to **2 Gbps**.

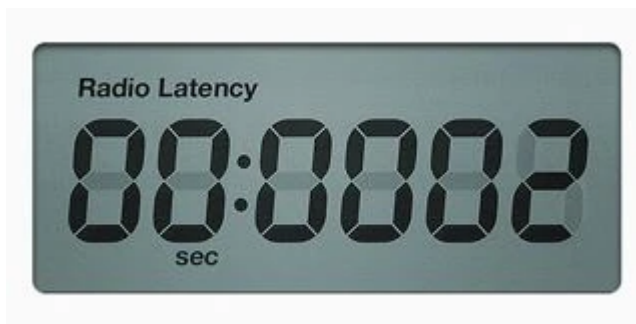

Proven connections of 20+ km

AirFiber@24 HD is characterized by the strongest automatic compensation for attenuation - providing the best range up to **24 GHz** among products in the **24 GHz band**.

Low transmission delay

AirFiber@24 HD supports **FDD** (Frequency Division Duplexing) in full duplex mode with a **0.2** millisecond delay, resulting in increased performance for the link network.

Unlicensed 24 GHz band

AirFiber@24 HD operates on licensed **24 GHz** frequencies worldwide. Users can deploy airFiber@24HD anywhere.
