Price: **1,030.72 zł** gross / 837.98 zł net

Manufacturer: UBIQUITI

Referention number: DNXEGLIMIRMMHI

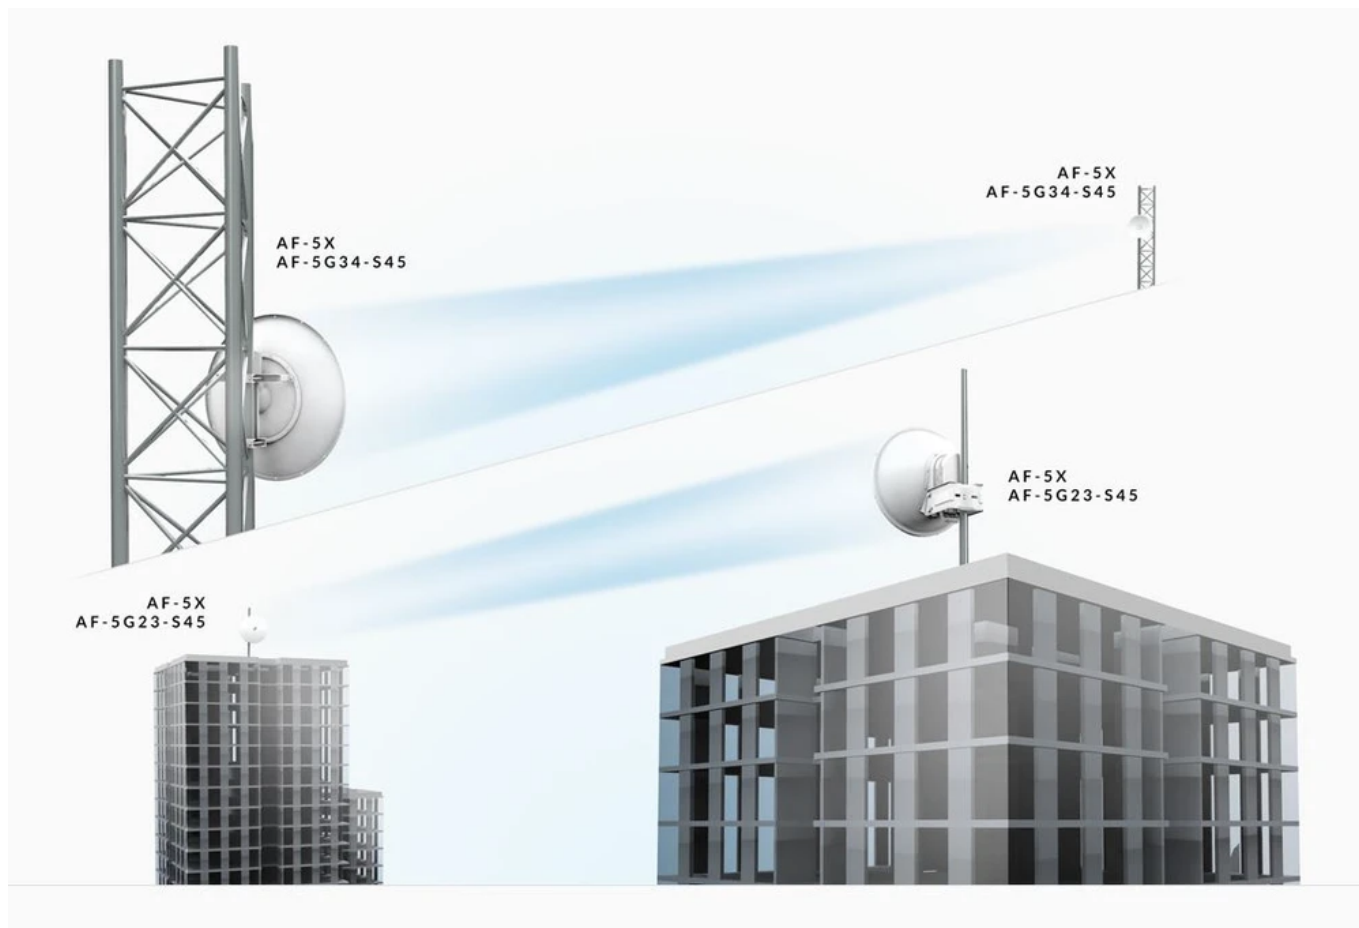

Product features

Harmonized System (HS) code	85177100
Antenna gain level (max)	26 gain
Survival wind speed	200 km/h
Polarization	Dual polarization
Diameter	650 mm
Designation	Outdoor
Product weight	9800 g

Full product description

Compact footprint for flexible implementation

The airFiber X device together with the airFiber X antenna can be used as a high quality **point-to-point bridge** (PtP) or **backhaul**. AirFiber X supports diagonal polarization $\pm 45^\circ$ to increase interference immunity and use SNR. The compact design allows airFiber X to be mounted on Ubiquiti antenna without the need for additional tools.

Plug and Play function

AirFiber X antennas are designed for seamless integration with airFiber X radio systems.

Advanced radio isolation design

Ubiquiti AIRFIBER DISH SLANT 45 AF-3G26-S45 is a special directional antenna in the form of a dish, operating in the frequency band **3GHz** and with a gain **26dBi**. Innovative **design improves radio signal isolation**, significantly **reducing interference** and providing excellent amplification for high performance multi-point networks.
